EXECUTIVE SUMMARY AND BACKGROUND

1. As outlined in the outturn report presented in June to the Authority, the auditing standards placed on the external auditor (Deloitte) require that the Auditor makes a report to the Authority following the Audit of the accounts, as a prelude to issuing a formal Opinion on the Authority's accounts. Following changes arising from The Accounts and Audit (England) Regulations 2015, the date by which principal local authorities must normally publish their accounts along with the auditor's opinion would be 31 July 2021. However, the Accounts and Audit (Amendment) Regulations 2021 delayed that date to 30 September 2021, with a set of accounts presented to the auditor and signed by the Treasurer by 31 July 2021. However, the Public Sector Audit Appointments (PSAA) has reported that at the statutory date of 30 September 2021 only 9% of local government bodies' 2020/21 audits had been completed.
2. The outturn report in June explained that the draft set of accounts had been provided to the auditor and the audit was underway. The audit has not experienced any complexities this year and therefore the audit process has been relatively straightforward. However, the deadline has not been met due to a delay in the response from the auditors as a result of the Pension Fund auditor not responding until late September in relation to the pensions elements and also late queries raised by Deloitte regarding land valuations. These points have now been resolved.

ACCOUNTS AND AUDIT 2020/21

3. As the responsible financial officer, the Treasurer signed and dated the Statement of Accounts for 2020/21 on 31st May 2021, ahead of the statutory deadline. The draft audited set of accounts are now attached for approval by the Authority.
4. Under the Auditing Practices Board's International Auditing Standard (UK and Ireland) 260 – "Communication of audit matters with those charged with governance", the Auditor is required to report to those charged with governance on the significant findings from the audit as a prelude to issuing a formal Opinion on the Authority's accounts. The ISA260 is attached at Appendix B.
5. The Audit report brings to your attention that there are no recommendations as a result of the 2020/21 work based on the work to date. Deloitte anticipate issuing an unqualified audit opinion on the Authority's financial statements. No areas of misstatement have been identified.
6. The Audit report has not noted any other deficiencies in relation to systems of internal control.
7. Deloitte are required to be satisfied that proper arrangements have been made by the Authority for securing value for money in its use of resources. As outlined on page 13 of the ISA260 report at Appendix B, the National Audit Office issued guidance to auditors in April 2021 extending the deadline for the completion of work on

arrangements to secure value for money. This outlines that the Auditor's Annual Report including this judgement will be issued within three months of the signing of the Audit Opinion and therefore will be reported to a future Authority meeting.

8. Auditing standards require Deloitte to obtain a written representation from management on certain matters material to their Opinion. A draft Letter of Representation is attached at Appendix C. The Authority is requested to authorise the Treasurer to sign the final version of this Letter on behalf of the Authority.
9. Following the Audit, the Authority is requested to approve the audited Statement of Accounts for 2020/21 at Appendix A and to authorise the Treasurer and Chairman to sign it accordingly.

AUDIT LETTER 2019/20

10. Also attached at Appendix D is the Annual Audit Letter from Deloitte for the 2019/20 accounts, confirming that an unqualified opinion was issued on 30 November 2020.

RECOMMENDATIONS

11. The Authority is recommended to:
 - (a) note the draft report from Deloitte relating to the Accounts for 2020/21 (Appendix B)
 - (b) authorise the Treasurer to sign the Letter of Representation (Appendix C), and if there are any matters arising after the meeting, to delegate to the Treasurer authority to agree the final version of this Letter
 - (c) approve the Authority's Statement of Accounts (Appendix A)
 - (d) note the Annual Audit Letter for 2019/20 (Appendix D)
 - (e) otherwise receive this report for information

NARRATIVE REPORT TO ACCOMPANY THE STATEMENT OF ACCOUNTS

Introduction

This is the Statement of Accounts for the Authority for the year ended 31 March 2021. The purpose of the Statement of Accounts is to summarise the financial position of the Authority.

The Statement of Accounts is a complex, technical document, the form and content of which is governed by the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code) which in turn is underpinned by International Financial Reporting Standards. This means that the accounts are prepared on the same basis as the rest of the local authorities in the United Kingdom. This report is intended to provide a fair, balanced and understandable guide to the most significant aspects of the Authority's financial performance, year-end financial position and cash flow, as well as giving information as to how the Authority will develop over the next few years.

The Statement of Accounts is made up of four core statements as follows:

- **Movement in Reserves Statement** - This is a summary of the changes that have taken place in the bottom half of the Balance Sheet over the financial year. It is analysed into 'usable reserves' (those that can be applied to fund expenditure or reduce the Levy such as the General Fund) and 'unusable reserves'.
- **Comprehensive Income and Expenditure Statement** - This consolidates all the gains and losses experienced by the Authority during the financial year.
- **Balance Sheet** – This statement shows the value, as at 31 March each year, of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority.
- **Cash Flow Statement** - This statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities.

Organisational Overview, External Environment and Operational Model

Western Riverside Waste Authority (WRWA) is one of four Statutory Joint Waste Disposal Authorities in London which are charged by Parliament with managing the waste collected by their respective constituent councils. In the case of WRWA, these are the London Boroughs of Hammersmith & Fulham, Lambeth, Wandsworth and the Royal Borough of Kensington and Chelsea.

The Authority manages its affairs with a main contractor, Cory Riverside Energy (Cory), through the Waste Management Services Agreement (WMSA) to minimise costs and maximise income from recycled materials. Total waste managed by the Authority reduced by 1,110 tonnes or under 0.5% with General waste tonnage reducing by 4,246 tonnes, or 1.5%. Recycling represented just over 23% of total waste managed, slightly higher than 2019/20. The reduction in General waste tonnage in the year is likely to be due to a number of factors, including light weighting by manufacturers and the impact of the Covid-19 outbreak (further information below).

The Authority's chief sources of income are charges to constituent councils for the disposal costs of waste, Apportionment of Waste Disposal Costs (AWDC) charges and levies upon those councils. The Authority has a statutory duty to apportion levies among the constituent councils for each financial year to meet liabilities for which provision is not otherwise made. The Authority has agreed with all four constituent councils the basis of this levy.

The Authority's key achievement in 2020/21 was its response to the challenges of the Coronavirus pandemic, with all essential waste services continuing through lockdown. Government guidance required the closure of the Household Waste and Recycling Centre for six weeks in April/May 2020 but it was one of the first in London to re-open and return to normal operations.

Risks

The Authority annually reviews its Risk Management Strategy and has developed a Risk Register which identifies key risks together with an analysis of their likelihood/impact and the key preventative, detective and corrective controls. The Annual Governance Statement again confirms that the Authority's Risk Management Strategy is effective and well embedded into management processes.

A key risk relates to the Local Authority sector's financial position in being able to fund their waste disposal costs and the potential subsequent pressure on the Authority to seek short term cost savings. The Authority continues to be open and transparent regarding its ability to reduce costs for constituent councils. The location of one of the Authority's transfer stations is within the regeneration area of Nine Elms and the redevelopment of the area may lead to possible nuisance claims by new residents. The Authority is mitigating this via ongoing discussions on a comprehensive redevelopment plan.

The volatility of recycling rates is a key risk to the constituent Councils in terms of price. In order to mitigate this, the Authority has arrangements with its contractor to ensure both an available market and price certainty as far ahead as possible for recycle.

The COVID-19 pandemic

On 24th March 2020, following a statement from the Prime Minister on 23rd March, the Household Waste and Recycling Centres (HWRCs) at Smugglers Way and Cringle Dock were temporarily closed due to the Covid-19 outbreak. However, Transfer Station and MRF operations were able to continue as normal. The HWRCs reopened successfully on 11th May 2020, following Government guidance around social distancing measures.

There were differences between the boroughs but overall, the total tonnage of General waste fell due to the constituent councils collecting less commercial waste, as most businesses have been required to close at points during the year. Since the pandemic began in 2020, the Authority has seen a significant increase in the tonnage of household General waste collected with most households staying at home.

Staff and management functions have been carried out remotely with no impact upon service delivery. During the pandemic services have operated as normal (albeit virtually) apart from the closure of the HWRC referred to earlier. The Authority has reviewed its contingency arrangements in the event of there being a local lockdown of one or more of the operational facilities and is satisfied that these will maintain services at no additional cost to the Authority. The Authority has also reviewed the potential impact of Covid 19 on its cashflow and is

satisfied that a combination of reserves and the arrangements for cost recovery from the constituent councils are robust. The Authority does not receive direct government support for any costs incurred from Covid 19.

Performance

The operational income and expenditure of the Authority is wholly affected by the tonnage of waste managed during the year. The Usable Reserves Balances at the end of March 2021 stood at £17.9 million, an increase of £2.4 million compared to that reported in March 2020. The balance at the end of March 2021 was £1 million less than anticipated when the budget for 2021/22 was set in January 2021 due to an overestimation of the valuation of Triad payments in the budget due for the period 2019 to 2021. The Authority approved a transfer of £3.0 million to the Loan Repayment Reserve in January 2021 when the 2021/22 budget was set which has been made in part from the General Fund and the Stabilisation Reserve.

Pensions

All permanent staff are eligible for inclusion in the statutory Local Government Pension Scheme (LGPS) administered by the London Pension Fund Authority (LPFA) under the Local Government Pension Scheme Regulations.

The Fund's assets increased by £1.1 million to £8.6 million. The Fund's actuary estimated that the present value of scheme liabilities has increased over the same period by £2.2 million, from £10.3 million to £12.5 million. The net pension liability therefore increased by £1.1 million from £2.8 million to £4.0 million. The Authority has a cash reserve of £1.8 million which would offset some of these costs should they ever crystallise.

The scale of the net liability, compared with total annual employment costs of around £0.5 million, underlines the risk of increased pension contributions that could ultimately be required. The Triennial Valuation undertaken as at 31 March 2019 set the minimum employer contribution rate as a percentage of payroll for the year from 1 April 2020 to 31 March 2023 at 13.8%, up from 12.4% in the previous valuation. The previous valuation required additional minimum employer contributions as a monetary amount due for the three year period was set at £0.1 million for 2017/18, 2018/19 and 2019/20. The Valuation undertaken as at 31 March 2019 does not include a secondary contribution requirement.

Borrowing Facilities

The Authority finances debt through the Public Works Loan Board (PWLB) with loans totalling £3.0 million outstanding at 31 March 2021, with no new loans advanced during the financial year. The Authority's current policy is to redeem debt from balances wherever this is practicable and the top up of the earmarked reserve established in 2018/19 will be used to redeem future loans. Average balances of £6.1 million were invested via Wandsworth Council earning the investment rate achieved by the Council at an average of 0.10%. The Authority also holds £6 million in the Diversified Income Fund (DIF) account with CCLA Investment Fund Management (CCLA). Day to day cashflow is managed within a Special Interest Bearing Account (SIBA) with the current retail banker (RBS/ Nat West) earning 0.25%. The Authority's total cash balance was £8.919 million at 31 March 2021. The cash balances are shown as cash or cash equivalents in the balance sheet.

Outlook

The total level of waste managed by the Authority in 2020/21 has reduced but as outlined above, a proportion of this is in relation to the Covid-19 pandemic. The level of waste

managed could grow in future years in line with the increase in population forecast for its area. The Authority continues to drive forward efficiencies from within the WMSA in order to generate savings for Constituent Councils in the current financial climate.

Key challenges for 2021/22 and beyond are:

- Redevelopment proposals at Cringle Dock, providing a new transfer station for the Authority and financial benefits for the Constituent Councils;
- Cory's proposal to redevelop land adjacent to the EfW facility at Belvedere; and
- Delivering savings.
- Deciding whether to negotiate changes to the Residual value agreement with Cory to bring forward financial benefits for the constituent Councils

However, the Constituent Councils benefit from the EfW facility at Belvedere under the current WMSA with:

- the avoidance of increasing government landfill tax costs;
- certainty of capacity to dispose; and
- contractual agreements through the WMSA to receive, refinancing savings, income from the sale of energy and eventually, the benefits to be achieved from Residual Value at the end of the existing contract in 2032.

Conclusion

The Authority has been able to maintain a sound financial base to meet future financial pressures.

STATEMENT OF RESPONSIBILITIES FOR THE ACCOUNTS**The Responsibility of the Authority**

The Authority is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that officer is the Treasurer.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the Statement of Accounts.

The Responsibility of the Treasurer

The Treasurer is responsible for the preparation of the Authority's Statement of Accounts in accordance with the proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this statement of accounts, the Treasurer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent; and
- complied with the local authority Code.

The Treasurer has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate

I certify that the Statement of Accounts presents a true and fair view of the Western Riverside Waste Authority's income and expenditure for the year ending 31 March 2021 and the authority's financial position as at 31 March 2021.

C Buss
Treasurer

November 2021

Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce charges to Constituent Authorities) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance for determining the Apportionment of Waste Disposal Costs (AWDC) charges and the residual Levy. The net Increase /Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the Authority.

	General Fund Balance	Pension Liability Reserve	Stabilisation Reserve	Loan Repayment Reserve	Recycling Initiatives Reserve	Total Usable Reserves	Unusable Reserves	Total Authority Reserves

Comprehensive Income and Expenditure Statement

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from AWDC charges and the Residual Levy. The Authority raises income to cover expenditure in accordance with regulations; this may be different from the accounting cost. The position relating to the raising of income to cover expenditure is shown in the Movement in Reserves Statement.

Expenditure and Funding Analysis

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (AWDC charges and the Residual Levy) by the Authority in comparison with those resources consumed or earned by the Authority in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Usable Reserve Balance carried forward	15,549			17,936		

For a breakdown of Useable Reserves, please refer to the Movement in Reserves Statement.

Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the authority. The net assets of the authority (assets less liabilities) are matched by the reserves held by the authority. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use. The second category of reserves is those that the authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line.

	Notes	31 March 2020 £000	31 March 2021 £000
Property, Plant and Equipment	11	58,907	57,966

Unusable Reserves	18	47,168	45,583
Total Reserves		62,717	63,519

The notes on pages 12 to 52 form part of the financial statements.

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting year. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the authority are funded by way of AWDC charges or the Residual Levy received from the Constituent Authorities. All activities are based on recovery of costs from the Constituent Authorities. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

	2019/20	2020/21
	£000	£000
Net surplus on the provision of services	560	1,788
Adjustments to net surplus or deficit on the provision of services for non-cash movements (Note 19)	(154)	266

Net cash outflow from Financing Activities (Note 21)	(5,500)	-
(Decrease)/increase in cash and cash equivalents	(10,594)	2,054
 Represented by		
Cash and cash equivalents at the beginning of the reporting year (Note 14)	17,460	6,866
Cash and cash equivalent at the end of the reporting year (Note 14)	6,866	8,920
(Decrease)/increase in cash and cash equivalents	(10,594)	2,054

NOTES TO THE ACCOUNTS**1. ACCOUNTING POLICIES***i. General Principles*

The Statement of Accounts summarises the Authority's transactions for the 2020/21 financial year and its position at the year-end of 31 March 2021. The Authority is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations (England and Wales) 2015. These Regulations also require that the accounts be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 (the Code), all relevant approved accounting standards issued by the International Accounting Standards Board (IASB) and the International Financial Reporting Issues Committee (IFRIC) and any relevant statutory guidance issued by Government.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments. The principal accounting policies have been applied consistently throughout the year.

ii. Going Concern

The Authority's financial statements are prepared on the going concern basis; that is, the accounts are prepared on the assumption that the Authority will continue in operational existence in the foreseeable future.

iii. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the provision of services is recognised when the Authority can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on cash balances and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet.

Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

- Where cash is received in advance of being due, this is recorded as a Receipt in Advance.

iv. Cash and Cash Equivalents

Cash is represented by deposits with current retail banker (RBS/ Nat West) and investments via Wandsworth Council repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in a specified period, no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts.

v. Exceptional Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Authority's financial performance.

vi. Prior Year Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior year adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior year adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior year as if the new policy had always been applied.

vii. Charges to Revenue for Non-Current Assets

Services are debited with the following amounts to record the cost of holding fixed assets during the year:

- depreciation attributable to the assets used by the service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible fixed assets attributable to the service

The Authority is not required to charge constituent Boroughs to fund depreciation, revaluation and impairment losses. However, it is required to make an annual contribution

from revenue towards the reduction in its overall borrowing requirement, equal to an amount calculated on a prudent basis determined by the authority in accordance with statutory guidance. Depreciation, revaluation and impairment losses are therefore replaced by the contribution in the General Fund Balance (MRP), by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two. Following a review of MRP policy and the establishment of an earmarked reserve to redeem debt MRP was reduced in 2019/20 and nil in future years.

viii. Employee Benefits

Benefits Payable During Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. health checks) for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. An accrual would be made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year, however, this is immaterial for the Authority and not recognised in the accounts.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the Comprehensive Income and Expenditure Statement when the Authority is demonstrably committed to the termination of the employment of an officer or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post Employment Benefits

Employees of the Authority are members of the Local Government Pension Scheme, the LPFA is the administering authority. The scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Authority.

The liabilities of the pension fund attributable to the Authority are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees,

based on assumptions about mortality rates, employee turnover rates, etc., and projections of projected earnings for current employees.

Liabilities are discounted to their value at current prices, using a discount rate of 1.95% in 2020/21 compared to 2.35% in 2019/20 (based on the net present value of the notional cash flow, discounted using the annualised Merrill Lynch AA rated corporate bond yield curve – this is consistent with the approach used at the previous accounting date).

The assets of the pension fund are valued at market value in the Balance Sheet. Market movements as a result of the pandemic towards the end of 2019/20 reduced asset values which have now recovered during 2020/21. Further detail is outlined in note 28.

The change in the net pension's liability is analysed into seven components:

- current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked;
- past service cost – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs;
- interest cost – the expected increase in the present value of liabilities during the year as they move one year closer to being paid – debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement;
- expected return on assets – the annual investment return on the fund assets attributable to the Authority, based on an average of the expected long-term return – credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement;
- gains or losses on settlements and curtailments – the result of actions to relieve the Authority of liabilities or events that reduce the expected future service or accrual of benefits of employees – debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs;
- actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – debited to the Pensions Reserve; and
- contributions paid to the pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being

required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

ix. Events After the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting year and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting year – the Statement of Accounts is adjusted to reflect such events; and
- Those that are indicative of conditions that arose after the reporting year – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

x. Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Authority has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be

spread over future years. The Authority has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from a Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- Amortised cost;
- Fair value through profit or loss; and
- Fair value through other comprehensive income.

The Authority's business model is to hold investments to collect contractual cash flow. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Financial Assets Measured at Fair Value through Profit and Loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques:

- instruments with quoted market prices – the market price; and
- other instruments with fixed and determinable payments – discounted cash flow analysis.

For Pooled Investment Funds which includes the Authority's DIF with the CCLA, the government has introduced a regulation to mitigate the effects of changes in fair value on the councils for a period of 5 years from 1 April 2018. Changes in fair value are transferred from the CIES to an account established solely for this purpose on the Balance Sheet. This account is called the Pooled Investment Funds Adjustment Account.

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES, along with any accumulated gains or losses previously recognised in the Pooled Investment Funds Adjustment Account.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

xi. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Authority as Lessee

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease.

The Authority as Lessor

Operating Leases

Where the Authority grants an operating lease over a property or an item of plant or equipment which it owns, the asset is retained in the Balance Sheet. Rental income is credited to the Other income outside IFRS 15 line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

xii. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Authority and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price;
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management; and
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Authority does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Authority). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Authority.

Assets are then carried in the Balance Sheet using the following measurement bases:

- assets under construction – depreciated historical cost; and
- all other assets – fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value, i.e. for vehicles and moveable plant.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains);
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2009 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains); and
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land), assets that are not yet available for use (i.e. assets under construction) and assets which have been reclassified from assets under construction within the year.

Depreciation is calculated on buildings, vehicles, plant, furniture and equipment on a straight-line basis over the useful life of the property as estimated by the valuer. (Remaining useful economic lives are as follows: Building structure – 58 years, Roof – 33 years, fixed plant (heating etc) – 18 years, and electrical equipment – 33 years). Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

xiii. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Authority may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the authority becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income if it is virtually certain that reimbursement will be received if the authority settles the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

xiv. Reserves

The Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against the levy for the expenditure.

xv. VAT

VAT payable is included as an expense in the comprehensive Income and Expenditure Statement and the capital accounts only to the extent that it is not recoverable from Her Majesty's Revenue and Customs (HMRC). VAT receivable is excluded from income accounts. VAT due from HMRC and payable to HMRC at the year end is accrued in the accounts and included in debtors or creditors.

xvi. Rounding – it is not the Authority's policy to adjust for immaterial cross-casting difference between the main statements and disclosure notes.

2. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

The Code introduces changes in Accounting Policies which will need to be adopted fully by the Authority in the 2021/22 financial statements. The Authority is required to disclose information relating to the expected impact of the accounting changes on the financial statements because of adoption by the Code of a new standard that has been issued but is not yet required to be adopted by the Authority.

IFRS 16 –Leases (CIPFA has agreed to defer implementation until 2022/23)

IFRS 16 will require the Authority to recognise assets on the Balance Sheet where any contract gives rise to a 'right of use asset'. Currently a distinction exists between operating and finance leases for lessees. Finance leases are accounted for as acquisitions (asset on the Balance Sheet) and operating leases are expensed in year therefore are not currently required to be reported on lessee balance sheets. IFRS 16 largely removes this distinction, unless it is a short term (12 months or less) or low value contract. For lessors the reporting requirements are largely unchanged as under the revised IFRS 16 there is still a distinction between operating and finance leases.

There is unlikely to be any areas within the above which will materially affect the Authority. IFRS 16 will apply to the Authority's leases, but as it is a lessor (other than in respect of the Energy from Waste facility, discussed in note 3), there will be limited impact of the new standard.

3. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies, the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

In 2002 the Authority entered into a long term Waste Management Services Agreement (WMSA) with Cory Environmental Limited. This agreement has been restated where required to meet the needs of the Authority, most significantly in 2008 when Cory commenced construction of the Energy from Waste (EfW) facility at Belvedere. The Authority's arrangements with Cory are complex, and accounting for them involves a number of Critical Accounting Judgements, as well as accounting estimates that are disclosed as Key Sources of Estimation Uncertainty. The principal aspects of these arrangements are disclosed below.

Services provided by Cory

The WMSA with Cory runs until 2032. The WMSA requires the Authority to direct its Constituent Councils to delivery all authority waste they are responsible for to Cory at agreed locations. Any waste that is not recycled is made available to Cory for incineration in the EfW facility. There is no minimum tonnage that must be supplied and no minimum payment.

The Authority pays a price per tonne for waste delivered to Cory (the "gate fee"), which is indexed each year. The gate fee was determined based on a financial model that took account of Cory's financing costs for the construction of the EfW facility, and the Authority has contractual protections to enable it to share in any refinancing gain if Cory refinances its debt (discussed further below).

The calculation of the gate fee for each period includes an energy revenue risk share mechanism, based on the average price (for electricity or other outputs) achieved during the financial year by Cory (with a lower price resulting in a higher cost to the Authority and vice versa). This variation is considered to be closely related to the underlying services provided by Cory, and so is not separated and separately accounted for.

The cost of services provided is accrued based upon the volume of activity and the applicable gate fee for the period. No account is taken of the Residual Value Agreement (discussed further below).

The cost of services is presented as a single net figure, including the refinancing benefit arising from the 2017 refinancing by Cory and without any grossing up for other elements of the Authority's arrangements with Cory for the reasons discussed below.

Residual Value Agreement

The design life of the EfW extends past the end of the main WMSA in 2032. The Authority has a Residual Value Agreement with Cory, which reflects that payments to 2032 will have

financed the construction of an asset with life beyond that date. The Authority will have the option between 2032 and 2046 to:

- Subject to agreement of commercial terms, to continue to deliver waste to Cory, and receive a reduced gate fee; and/or
- Receive a royalty on waste from other sources processed at the plant.

The Authority's ability to benefit under the Residual Value Agreement is dependent upon the continued operation of the EfW facility past 2032, and the volume of waste (including Authority waste) processed at the facility. These may be affected by legislative and/or policy changes.

The potential estimated annual value of this entitlement (which is indexed and so will vary over time) is difficult to estimate but could be as much as £11 million in the first year of the Residual Value Agreement.

A critical accounting judgement is whether any amounts should be recognised in respect of this in advance of 2032 (which would reduce the expense recognised pre-2032, and increase the net expense recognised post-2032). The Authority is of the view that there is a significant level of uncertainty as to whether this value will accrue and has decided not to reflect this within the accounts.

In particular, no intangible asset has been recognised in respect of this, on the basis that:

- The "cost" paid as part of the gate fee to 2032 is not separately identifiable; and
- There is no active market to determine the fair value of the asset.

It should be noted that during 2020/21 the Authority was approached by Cory regarding whether it wished to review the arrangements under the Residual Value Agreement which might amend the situation stated above in future. As at 31 March 2021, discussions were ongoing.

Authority sites

The Authority owns the Smugglers Way and Cringle Dock sites. These sites, including buildings and plant thereon, are leased to Cory until 2032 for an annual payment of £1.

Under the terms of the WMSA, Cory was required to carry out various capital works on the site, including the construction of the Civic Amenity Facility and Municipal Recycling Facility. The Authority paid separately for the construction of these assets, with payments accounted for as capital expenditure.

The Authority considers these arrangements represent operating leases, as the Authority retains substantially all the risks and rewards incidental to ownership of the assets. The economic value of the lease to Cory is not separately identifiable within the WMSA and lease agreement, and so it is not possible to show separately lease income and gross cost paid to Cory.

The assets are shown within Property, Plant and Equipment, and are revalued on a freehold basis as detailed in note xii above.

EfW site leases

Cory owns the site of the EfW facility. This has been leased to the Authority on a peppercorn lease until the earlier of 2058 or the end of the Residual Value period. This is then leased back to Cory for a peppercorn until 2032, and thereafter for the amount of any royalties due under the Residual Value Agreement.

The Authority has considered the substance of this arrangement, and has concluded that this does not represent a lease, and is instead in substance a protective provision to ensure payments of any amounts due under the Residual Value Agreement.

Force Majeure provisions

The WMSA includes provisions to address various potential termination scenarios, including the possibility of Force Majeure events leading to termination of the contract. In the event of specified Force Majeure events occurring (and not being remedied by Cory), the Authority would be obligated to pay Cory an amount intended to cover inter alia the repayment of relevant elements of the Senior Debt. In return, the EfW facility would transfer to the Authority. Depending upon the situation arising, this could result in a valuable asset transferring to the Authority for under value, or the Authority acquiring an asset requiring significant expenditure to enable on-going operations. The principal element of any payment would be in respect of relevant elements of Cory's Senior Debt, the Authority assessed the risk of payment as less than 1 in 1,600 a year.

This arrangement involves the Authority taking on insurance risk, and therefore is considered under the requirements of IFRS 4. The Authority considers that there is no separately identifiable consideration for this arrangement that should be presented as income. The Authority has assessed the minimum level of provision required and has not recognised a provision as the possibility of cash outflows is currently considered remote.

Refinancing

The WMSA includes provisions to ensure that the Authority shares in any refinancing gains from Cory refinancing its borrowings.

- In 2017, the main contractor undertook a qualifying refinancing, with the result being treated as a combined arrangement with the Authority and resulting in a net benefit recognised over time via a change to the contract price and therefore reflected each year dependent upon the volume of activity.
- In 2018, the Authority received £3.5m from the main contractor which was in effect a payment to facilitate their refinancing, this payment has no impact on future potential or contingent liabilities and thus future costs. However, as this payment has arisen due to the existence of the WMSA, it has been agreed with the Authority's auditors that this income be recognised over the remaining life of the contract and therefore is held as deferred income and gradually released into revenue. An amount of £250,000 has been recognised as revenue in the 2020/21 accounts, the same value as that recognised in 2019/20.

4. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

There is a high degree of uncertainty about the government's Landfill Tax policy. However, the Authority has determined that this uncertainty is not sufficient to undermine predictions about future levels of AWDC charges and the Residual Levy due to the use of the EfW plant.

The items in the Authority's Balance Sheet at 31 March 2021 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. In the event that wear and tear on the assets is more intensive than assumed, then the assets will have to be depreciated over a shorter period of time, resulting in higher repairs and maintenance costs to extend the life of the asset or a shorter repayment period before PWLB loans fall due.	If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for buildings would increase by £14,900 for every year that useful lives had to be reduced.
Land and Buildings	The outbreak of Covid19 has impacted global financial markets and the valuations issued for 31 March 2020 were reported on the basis of 'material valuation uncertainty'. However, as at the valuation date property markets are mostly functioning again, with transaction volumes and other relevant evidence at levels where an adequate quantum of market evidence exists upon which to base opinions of value. Accordingly there is no such 'material valuation	A reduction in the estimated valuations would result in reductions to the Revaluation Reserve and/or a loss recorded as appropriate in the Comprehensive Income and Expenditure Statement. The current balance of the Revaluation Reserve will fund a reduction in the Authority's Land and Buildings of over 50% before this would result in any charge to the Comprehensive Income and Expenditure Statement.

	uncertainty' for the 2020/21 values. Further information is in Note 11.	
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Authority with expert advice about the assumptions to be applied.	The effects on the net pensions liability of changes in individual assumptions can be measured. For instance, a 0.1% increase in the discount rate assumption would result in a decrease in the pension liability of £199,000. However, the assumptions interact in complex ways. A +1 year adjustment to the mortality age rating assumption would result in an increase in the pension liability of £625,000. A detailed sensitivity analysis for changes in assumptions is included in note 28.
Arrears	The Authority recovers the significant majority of its costs from the Constituent Authorities under statute. Late payment by the Constituent Authorities will incur additional cash flow charges or result in a reduction in interest earned on cash flow movements.	If collection rates were to deteriorate, a higher penalty rate would have to be imposed on Constituent Councils to ensure cash flow losses are not incurred.

5. MATERIAL ITEMS OF INCOME AND EXPENSE

The Authority received £3.5 million cash receipt as a result of Cory executing a debt refinancing of the Belvedere Energy from Waste plant in October 2018 which has been classified as deferred income in the accounts and recognised gradually in revenue over the lifetime of the WMSA, that being for the period until October 2032. The amount included within revenue in 2020/21 is £250,000 which is the same as that recognised in 2019/20.

6. EVENTS AFTER THE BALANCE SHEET DATE

The Draft Statement of Accounts was authorised for issue by the Treasurer on 31 May 2021. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2021 the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

7. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Authority in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

The General Fund is the statutory fund into which all the receipts of the Authority are required to be paid and out of which all liabilities of the Authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Authority is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Authority is required to recover) at the end of the financial year.

2020/21	General Fund Balance £000	Movement in Unusable Reserves £000
Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:		
Charges for depreciation and impairment of non-current assets	(941)	941
Changes in fair value of pooled investments	482	(482)
Insertion of items not debited or credited to the Comprehensive Income and Expenditure Statement:		
Provision for debt redemption	-	-
Loan repayment charged against the General Fund	-	-
Capital expenditure charged against the General Fund	-	-
Adjustments primarily involving the Pensions Reserve:		
Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement (see Note 28)	(203)	203
Employer's pensions contributions and direct payments to pensioners payable in the year (see Note 28)	61	(61)
Total Adjustments	(601)	601
2019/20	General Fund Balance £000	Movement in Unusable Reserves £000
Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:		
Charges for depreciation and impairment of non-current assets	(941)	941
Changes in fair value of pooled investments	(767)	767
Insertion of items not debited or credited to the Comprehensive Income and Expenditure Statement:		
Provision for debt redemption	54	(54)
Loan repayment charged against the General Fund	5,500	(5,500)
Capital expenditure charged against the General Fund	-	-
Adjustments primarily involving the Pensions Reserve:		
Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement (see Note 28)	(318)	318
Employer's pensions contributions and direct payments to pensioners payable in the year (see Note 28)	108	(108)
Total Adjustments	3,636	(3,636)

8. TRANSFERS TO/FROM EARMARKED RESERVES

This note sets out the amounts set aside from the General Fund balance in earmarked reserves to provide financing for future expenditure plans and the amounts posted back from earmarked reserves to meet General Fund expenditure in 2020/21.

The Authority created a Pension Liability Reserve in 2012/13 of £1.8 million. The Actuary for the Pension fund (administered by the LPFA) has reported on the triennial valuation that as at 31 March 2019, the Authority's element of the LPFA fund was fully funded. This valuation, although it is a forward look, is still only valid as at that point in time and the fund will be subject to market pressures which could mean that the funding level drops due to investments not performing as well as could be expected. In light of this it is proposed to retain the Pension Liability Reserve at this time in provide against future increases in charges from the LPFA requiring increases in the Levy.

In 2015/16 the Authority set up the Levy Equalisation Reserve, Rates Stabilisation Reserve and Recycling Initiatives Reserve. These first two reserves were set up as a prudent approach to offset potential changes in rates and the Levy as a result of circumstances outside the Authority's control. With effect from 1 April 2017 these two reserves were merged enabling the Authority to have greater flexibility in how it meets spending pressures in these two key areas. The Recycling Initiatives Reserve will enable future recycling projects to be proposed and funded without the requirement of additional borough funding. In 2018/19 a Loan Repayment Reserve was established to provide for the redemption of the majority of current debt with the PWLB which was then applied in full during 2019/20 to fund the repayment of loans. At the end of 2020/21 this reserve has been topped up again to cover the remaining PWLB loan balances outstanding.

	Balance 1 April 2019 £000	Transfers Out 2019/20 £000	Transfers In 2019/20 £000	Balance 31 Mar 2020 £000	Transfers Out 2020/21 £000	Transfers In 2020/21 £000	Balance 31 Mar 2021 £000
General Fund:							
General Fund Balance	4,620	(3,356)	2,049	3,313	(2,389)	2,388	3,312
Pension Liability Reserve	1,800	-	-	1,800	-	-	1,800
Stabilisation Reserve	6,830	-	3,356	10,186	(611)	-	9,575
Loan Repayment Reserve	5,125	(5,125)	-	-	-	3,000	3,000
Recycling Initiatives Reserve	250	-	-	250	-	-	250
Total	18,625	(8,481)	5,405	15,549	(3,000)	5,389	17,936

9. FINANCING AND INVESTMENT INCOME AND EXPENDITURE

	2019/20 £000	2020/21 £000
Interest payable and similar charges	285	128
Net interest on the net defined benefit liability (asset)	87	76
Interest receivable and similar income	(92)	(11)
Movements in fair value of financial instruments	767	(482)
Total	1,048	(289)

10. OTHER INCOME

Amounts included in the Comprehensive Income and Expenditure Statement for other income include the full year recognition of £250,000 of the £3.5m receipt from Cory classified as deferred income, £175,000 from Cory as agreed within the arrangement regarding the progress of development of the Riverside Energy Park (awarded as planning consent was granted) and £227,000 income from Westminster council for the use of the Authority's Household Waste and Recycling Centres:

	2019/20	2020/21
	£000	£000
Other income	529	663

Nothing is included in the Balance Sheet for contracts with service recipients, nor was there in 2019/20.

11. PROPERTY, PLANT AND EQUIPMENT

Movement on Balances 2020/21

A valuation was carried out by the Authority's Valuer, P C Smith, MRICS IRRV (Hons), RICS Registered Valuer of Wilks Head & Eve LLP, on land, buildings and fixed plant and equipment as at 31 March 2018. Assets are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. The outbreak of Covid19 impacted global financial markets and the valuations issued for 31 March 2020 were reported on the basis of 'material valuation uncertainty' as per the RICS Red Book Global. However, as at the valuation date property markets are mostly functioning again, with transaction volumes and other relevant evidence at levels where an adequate quantum of market evidence exists upon which to base opinions of value. Accordingly there is no such 'material valuation uncertainty' for the 2020/21 values.

	Land and Buildings	Fixed Plant and Equipment	Vehicles and Moveable Plant	Total
	£000	£000	£000	£000
Cost or valuation at 1 April 2020	54,796	8,780	223	63,799
Additions	-	-	-	-
Reclassifications	-	-	-	-
Revaluation increases/ (decreases) recognised in Revaluation Reserve	-	-	-	-
Revaluation increases to Surplus/ Deficit on Provision of Services	-	-	-	-
At 31 March 2021	54,796	8,780	223	63,799
Accumulated Depreciation and Impairment at 1 April 2020	(1,493)	(3,176)	(223)	(4,892)
Depreciation charge	(702)	(239)		(941)
Depreciation written out to the Revaluation Reserve	-	-	-	-
At 31 March 2021	(2,195)	(3,415)	(223)	(5,833)
Net Book Value at 31 March 2021	52,601	5,365	-	57,966
at 31 March 2020	53,303	5,604	-	58,907

Fixed Plant and Equipment

No capital expenditure was incurred during 2020/21 or 2019/20.

2019/20

	Land and Buildings £000	Fixed Plant and Equipment £000	Vehicles and Moveable Plant £000	Total £000
Cost or valuation at 1 April 2019	54,796	8,780	223	63,799
Additions	-	-	-	-
Reclassifications	-	-	-	-
Revaluation increases/ (decreases) recognised in Revaluation Reserve	-	-	-	-
Revaluation increases to Surplus/ Deficit on Provision of Services	-	-	-	-
At 31 March 2020	54,796	8,780	223	63,799
Accumulated Depreciation and Impairment at 1 April 2019	(791)	(2,937)	(223)	(3,951)
Depreciation charge	(702)	(239)		(941)
Depreciation written out to the Revaluation Reserve	-	-	-	-
At 31 March 2020	(1,493)	(3,176)	(223)	(4,892)
Net Book Value at 31 March 2020	53,303	5,604	-	58,907
at 31 March 2019	54,005	5,843	-	59,848

12. FINANCIAL INSTRUMENTS

Categories of Financial Instruments

The following categories of financial instrument are carried in the Balance Sheet:

	Long-term		Current	
	31 March 2020 £000	31 March 2021 £000	31 March 2020 £000	31 March 2021 £000
Financial Assets				
Fair value through profit and loss	-	-	5,737	6,219
Amortised cost	-	-	6,649	7,062
Total Financial Assets	-	-	12,386	13,281
Financial Liabilities				
Fair value through profit and loss	-	-	-	-
Amortised cost	3,000	3,000	6,534	6,854
Total Financial Liabilities	3,000	3,000	6,534	6,854

Fair Values of Assets and Liabilities

Financial liabilities and financial assets represented by loans and receivables and long-term debtors and creditors are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- estimated ranges of interest rates at 31 March 2021 of 3.69% to 4.57% for loans from the Public Works Loan Board (PWLB);
- no early repayment or impairment is recognised;
- where an instrument will mature in the next 12 months, carrying amount is assumed to approximate to fair value; and
- the fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair values calculated are as follows:

Financial Liabilities	31 March 2020		31 March 2021	
	Carrying amount £000	Fair value £000	Carrying amount £000	Fair value £000
Financial Liabilities held at amortised cost – short term borrowing	-	-	2,000	2,000
Financial Liabilities held at amortised cost – long term borrowing	3,000	3,384	1,000	1,159
Total	3,000	3,384	3,000	3,159

The fair value of outstanding long term debts as at 31 March 2021 was higher than the book value due to the changes in market factors since the original borrowing was made.

Financial Assets	31 March 2020		31 March 2021	
	Carrying amount £000	Fair value £000	Carrying amount £000	Fair value £000
Financial assets held at fair value through Profit and loss – Diversified income fund	5,737	5,737	5,737	6,219
Financial Assets held at amortised cost	6,649	6,649	7,062	7,062
Total	12,386	12,386	12,799	13,281

Fair Values of Financial Assets

Some of the Authority's financial assets are measured at fair value on a recurring basis and are described in the following table, including the valuation techniques used to measure them.

Financial Assets measured at fair value

Recurring fair value measurements	Input level in fair value hierarchy	Valuation technique used to measure fair value	As at 31 March 2020 £000	As at 31 March 2021 £000
<i>Fair Value Through Profit or Loss</i>				
Diversified Income Fund	Level 1	Unadjusted quoted prices in statement received	5,737	6,219
Total			5,737	6,219

13. SHORT TERM DEBTORS

Short term debtors and other receivables at 31 March 2020 and 31 March 2021 can be analysed as follows:

ITEM	31 March 2020* £000	31 March 2021 £000
Trade Receivables	248	940
Accrued Income	4,940	4,668
Other Receivable Amounts	1,461	1,454
Total	6,649	7,062

*Prior year has been adjusted to be reported on the same basis at current year.

14. CASH AND CASH EQUIVALENTS AND SHORT TERM INVESTMENTS

The balance of Cash and Cash Equivalents is made up of the following elements:

	31 March 2020 £000	31 March 2021 £000
Cash at bank	2,627	894
Cash held by Wandsworth Council	4,239	8,026
Total	6,866	8,920

The balance of Short Term Investments is made up of the following:

	31 March 2020 £000	31 March 2021 £000
Diversified Income Fund	5,737	6,219
Total	5,737	6,219

15. SHORT TERM CREDITORS

Creditor payments 31 March 2020 and 31 March 2021 can be analysed as follows:-

ITEM	31 March 2020* £000	31 March 2021 £000
Accruals	3,932	4,604
Total	3,932	4,604

*Prior year has been adjusted to be reported on the same basis at current year.

16. PROVISIONS

There are no provisions recognised at 31 March 2021 (31 March 2020 was also nil).

17. USABLE RESERVES

Movements in the Authority's usable reserves are detailed in the Movement in Reserves Statement.

18. UNUSABLE RESERVES

	31 March 2020	31 March 2021
	£000	£000
Revaluation Reserve	29,360	29,360
Pensions Reserve	(2,827)	(3,954)
Capital Adjustment Account	21,402	20,461
Pooled Investment Funds Adjustment Account	(767)	(284)
Total Unusable Reserves	47,168	45,583

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2009, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Authority makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2019/20 £000	2020/21 £000
Balance at 1 April	(3,317)	(2,827)
Remeasurements of the net defined benefit liability	700	(985)
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(318)	(203)
Employer's pensions contributions and direct payments to pensioners payable in the year	108	61
Balance at 31 March	(2,827)	(3,954)

Capital Adjustment Account

The Capital Adjustment Account contains the amounts contributed from the Comprehensive Income and Expenditure Statement for the repayment of external loans, and is adjusted for depreciation. In previous years there has been a payment 'holiday' in relation to debt redemption but the recognition of the contribution from Cory in 2018 as deferred income led to the voluntary contribution of £54,000 in 2019/20. In 2019/20 £5.5m of PWLB loans were repaid and in order to write out the annual provision for debt redemption in relation to these debts, a payment has been made between the General Fund and the Capital Adjustment Account.

	2019/20 £000	2020/21 £000
Balance at 1 April	16,789	21,402
Provision for debt redemption	54	-
Depreciation provision	(941)	(941)
Repayment of PWLB loans	5,500	-
Balance at 31 March	21,402	20,461

Pooled Investments Adjustment Account

The Pooled Investments Adjustment Account reflects the balance between fair value and investment originally made for funds held in the CCLA Diversified Income Fund. As noted there is a five year exemption operational from 2018 which allows for the accounting treatment in this way.

19. CASH FLOW STATEMENT – OPERATING ACTIVITIES

The cash flows for operating activities include the following items:

	2019/20	2020/21
	£000	£000
Interest received	92	11
Interest paid	(286)	(128)
Total	(194)	(117)

The surplus or deficit on the provision of services has been adjusted for the following non-cash movements:

	2019/20	2020/21
	£000	£000
Depreciation	941	941
Impairment and downward valuations	767	(482)
(Increase) in receipts in advance	(289)	(352)
(Increase) in deferred income	(250)	(250)
Increase in creditors	9	672
(Decrease) in debtors	(1,529)	(413)
(Decrease)/Increase in prepayments	(13)	8
Movement in pension liability	210	142
	(154)	266

20. CASH FLOW STATEMENT – INVESTING ACTIVITIES

	2019/20	2020/21
	£000	£000
Purchase of short-term and long-term investments	(5,500)	-
Net cash flows from investing activities	(5,500)	-

21. CASH FLOW STATEMENT – FINANCING ACTIVITIES

	2019/20	2020/21
	£000	£000
Repayments of short- and long-term borrowing	(5,500)	-
Net cash flows from financing activities	(5,500)	-

22. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

There are no liabilities arising from the financing activities during the year 2020/21. During 2019/20 £5.5m of PWLB loans were repaid:

	1 April 2019	Financing cash flows	Non-cash changes	31 March 2020
Long term borrowing	3,000	-	-	3,000
Short term borrowing	5,500	(5,500)	-	-
Total liabilities from financing activities	8,500	(5,500)	-	3,000

	1 April 2020	Financing cash flows	Non-cash changes	31 March 2021
Long term borrowing	3,000	-	(2,000)	1,000
Short term borrowing	-	-	2,000	2,000
Total liabilities from financing activities	3,000	-	-	3,000

23. OFFICERS' REMUNERATION

The remuneration paid to the Authority's senior employees is as follows:

Title	Year	Salary, Fees and Allowances £000	Bonuses £000	Expenses Allowances £000	Pension Contribution £000	Total £000
General Manager – Mark Broxup	2019/20	139	12	1	19	171
	2020/21	141	13	-	21	175
Deputy General Manager	2019/20	78	7	-	11	96
	2020/21	81	7	-	12	100
Clerk	2019/20	11	-	-	-	11
	2020/21	11	-	-	-	11
Treasurer	2019/20	11	-	-	-	11
	2020/21	11	-	-	-	11

Bonuses relates to a Performance Related Pay award.

Remuneration band	2019/20 Number of Employees	2020/21 Number of Employees
£80,000 - £84,999	0	0
£85,000 - £89,999	1	1
£145,000 - £149,999	0	0
£150,000 - £154,999	1	1

The Authority's other employees receive below £50,000 remuneration for the year (excluding employer's pension contributions).

There are no allowances paid to Members by the Authority and no exit packages in either 2019/20 or 2020/21.

24. EXTERNAL AUDIT COSTS

The Authority has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Authority's auditors:

	2019/20	2020/21
	£000	£000
Fees payable to Deloitte with regard to external audit services carried out by the appointed auditor for the year 2019/20 and 2020/21 respectively	12	12

An additional fee of £27,014 was paid to Deloitte in August 2020 in relation to the 2018/19 audit. Any 2019/20 additional fees have not yet been agreed and are therefore not included in this table.

25. RELATED PARTIES

The Authority is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Authority or to be controlled or influenced by the Authority. Disclosure of these transactions allows readers to assess the extent to which the Authority might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely.

Central Government: Central government has effective control over the general operations of the Authority in that it is responsible for providing the statutory framework within which the Authority operates.

Members: Each of the four constituent boroughs of the Authority appoints two of their Members to the Authority. Transactions between the Authority and its constituent boroughs, principally the Levy and charges for the treatment of waste, are detailed elsewhere in the accounts. Apart from this dual role, no Member of the Authority has reported that he/she or members of their families and households exercised any control or influence on any of the companies or other bodies with which the Authority transacted in 2020/21.

Officers: No officer or member of their family or household, whether working wholly for the Authority or in an advisory role has indicated that they or members of their families and households exercised any control or influence on any of the companies or other bodies with which the Authority transacted in 2020/21.

Other Public Bodies: A number of transactions with related parties are disclosed elsewhere in the accounts. Details of each constituent borough's levy and charges are shown in the Comprehensive Income and Expenditure Account. The Authority operates with the following services provided by Wandsworth Council:

	2019/20	2020/21
	£000	£000
Financial Services	60	61
Other Services (admin support etc)	27	27
Total	87	88

At 31 March 2020 and 31 March 2021 the following Authority balances related to the constituent councils:

Debtors and Accrued Income	31 March 2020	31 March 2021
	£000	£000
Hammersmith and Fulham	729	809
Kensington and Chelsea	714	682
Lambeth	1,071	2,263
Wandsworth	1,055	1,246

The Authority invests cash via Wandsworth Council with a balance of £8.0m held with Wandsworth as at 31 March 2021 (£4.2m as at 31 March 2020). Net interest payments on cash flow balances of £7,029 were received by the Authority from Wandsworth Council for the year 2020/21 whilst net interest payments for 2019/20 amounted to £77,176.

26. CAPITAL EXPENDITURE AND CAPITAL FINANCING

There was no capital expenditure incurred in the year as shown in the table below. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note.

	2019/20	2020/21
	£000	£000
Opening Capital Financing Requirement	13,633	8,079
Capital investment		
Capital Expenditure	-	-
Sources of finance		
MRP	(54)	-
Direct revenue contributions	(5,500)	-
Closing Capital Financing Requirement	8,079	8,079
Explanation of movements in year		
Reduction in underlying need to borrow (unsupported by government financial assistance)	5,500	-
Revenue provision for future repayment of loans	54	-
Decrease in Capital Financing Requirement	5,554	-

27. LEASES

Authority as Lessor

Operating Leases

The Authority has leased out land at Institute Wharf, Smugglers Way to Chartwell Properties Ltd on a 15 year lease with effect from 2015 for a rental value of £158,599 per annum.

The future minimum lease payments receivable under non-cancellable leases in future years are:

	Minimum Lease Payments	
	31 March 2020	31 March 2021
	£000	£000
Not later than one year	159	159
Later than one year and not later than five years	634	634
Later than five years	906	747
Total	1,699	1,540

Authority as Lessee

Operating Leases

The Authority leases and leases back the Energy from Waste facility at Belvedere at a peppercorn rent. As discussed in note 3, the Authority considers that in substance this arrangement is not a lease and so is not accounted for as such.

The Authority relinquished a lease from Wandsworth Borough Council for the use of Feather's Wharf at the end of October 2013. Therefore no lease payments have been made for the year 1 April 2020 to 31 March 2021.

28. DEFINED BENEFIT PENSION SCHEMES

1. **PENSION FUND.** As part of the terms and conditions of employment of its officers, the Authority makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.
2. **Local Government Pension Scheme.** All permanent staff are eligible for inclusion in the statutory Local Government Pensions Scheme (LGPS) which is administered by the London Pensions Fund Authority (LPFA) under the Local Government Pension Scheme Regulations. Employee costs shown in the accounts include the contributions paid to the scheme in respect of the employees concerned in accordance with Regulations governing the

Scheme. An independent firm of actuaries, Barnett Waddingham, was instructed to undertake IAS 19 calculations on behalf of the Authority as at 31 March 2021.

3. We recognise the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against the Levy is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	Year to 31 March 2020 £000	Year to 31 March 2021 £000
<u>Comprehensive Income and Expenditure Statement</u>		
Service cost	231	127
<i>Financing and Investment Income and Expenditure</i>		
Net Interest Expense	87	76
<i>Total Post-employment Benefits charged to the Surplus of Deficit on the Provision of Services</i>	318	203
<i>Other Post-employment Benefits charged to the Comprehensive Income and Expenditure Statement</i>		
Remeasurement of the net defined benefit liability comprising:		
Return on plan assets (excluding the amount included in the net interest expense)	368	(1,140)
Actuarial gains and losses arising on changes in demographic assumptions	(44)	(108)
Actuarial gains and losses arising on changes in financial assumptions	(969)	2,352
Other actuarial gains and losses	258	-
Experience gain/(loss) on defined benefit obligation	(313)	(119)
<i>Total Post-employment Benefits charged to the Comprehensive Income and Expenditure Statement</i>	(700)	985
<u>Movement in Reserves Statement</u>		
Reversal of net charges made to the Surplus or Deficit for the Provision of Services for post-employment benefits in accordance with the Code	(318)	(203)
<i>Actual amount charged against the General</i>		

Fund Balance for pensions in the year:

Employers' contributions payable to scheme	108	61
--	-----	-----------

At the end of 2018/19, the Supreme Court ruled on the McCloud case, challenging the 2015 rule changes to the public sector pensions as discriminatory to younger employees. The ruling means that local government pension funds are likely to have to compensate and account for payments to ensure that no employee is left out of pocket. However, the structure of the Authority's liabilities with most being either deferred or already in receipt of pension will mean that the majority are outside of the impact of this judgement and therefore exposure to this risk is limited. The figures here include the estimated impact of the McCloud judgement.

Pension Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the Authority's obligation in respect of its defined benefit plans is as follows:

	2019/20 £000	2020/21 £000
Present value of the defined benefit obligation	10,285	12,506
Fair value of scheme assets	(7,458)	(8,552)
Present value of unfunded obligation	-	-
Net liability arising from defined benefit obligation	2,827	3,954

Reconciliation of the Movements in the Fair Value of Scheme Assets

	2019/20 £000	2020/21 £000
Opening fair value of scheme assets	8,108	7,458
Interest income	188	173
Remeasurement (loss)/gain:		
The return on assets, excluding the amount included in the net interest expense	(368)	1,140
Other actuarial (losses)	(258)	-
Contributions from employer	108	61
Contributions from employees into the scheme	31	31
Benefits paid plus unfunded net of transfers in	(340)	(301)
Administration expenses	(11)	(10)
Closing fair value of scheme assets	7,458	8,552

Local Government Pension Scheme Assets Comprised:

	2019/20		2020/21	
	£000	%	£000	%
Equities	4,040	54	4,646	54
Target Return Portfolio	1,818	25	2,013	24
Infrastructure	523	7	725	8
Property	681	9	778	9
Cash	396	5	390	5
Total	7,458	100	8,552	100

35.0% of total assets do not have a quoted market price in an active market and therefore there is a higher degree of estimation uncertainty over their valuation at 31 March 2021, compared to 32.7% at 31 March 2020.

Reconciliation of Present Value of the Scheme Liabilities

	2019/20	2020/21
	£000	£000
Opening balance 1 April	11,425	10,285
Current service cost	167	127
Interest cost	264	239
Contributions from scheme participants	31	31
Remeasurement (gains) and losses:		
- Actuarial gains/losses arising from changes in demographic assumptions	(44)	(108)
- Actuarial gains/losses arising from changes in financial assumptions	(969)	2,352
Experience loss/(gain) on defined benefit obligation	(313)	(119)
Past Service Cost	64	-
Liabilities assumed on entity combinations		
Benefits paid	(340)	(301)
Unfunded pension payments	-	-
Closing balance at 31 March	10,285	12,506

4. Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The scheme has been assessed by Barnett Waddingham based upon the latest triennial valuation, as at 31 March 2019.

The significant assumptions used by the actuary have been:

	2019/20*	2020/21
Longevity at 65 for current pensioners:		
-Men	21.9	21.6
-Women	22.5	22.5
Longevity at 65 for future pensioners:		
-Men	23.8	23.5
-Women	25.5	25.4
Rate of inflation	1.95	2.90
Rate of increase in salaries	2.95	3.90
Rate of increase in pensions	1.95	2.90
Rate for discounting scheme liabilities	2.35	1.95

*2019/20 figures reflect the updated IAS19 report for 2020/21

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. Whilst the post retirement mortality assumptions are consistent with the previous year, it has been updated to use the latest version of the Continuous Mortality Investigation's model, CMI_2020, which was released in March 2021. This reflects the incorporation of the exceptional mortality experienced due to the coronavirus pandemic without having a disproportionate impact on results. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

	£000	£000	£000
Longevity (sensitivity)	+1 Year	None	-1 Year
Present Value of Total Obligation	13,131	12,506	11,912
Projected Service Cost	192	184	175
Rate of increase in salaries (sensitivity)	+0.1%	0.0%	-0.1%
Present Value of Total Obligation	12,532	12,506	12,480
Projected Service Cost	184	184	184
Rate of increase in pensions (sensitivity)	+0.1%	0.0%	-0.1%
Present Value of Total Obligation	12,681	12,506	12,334
Projected Service Cost	189	184	179
Rate for discounting scheme liabilities (sensitivity)	+0.1%	0.0%	-0.1%
Present Value of Total Obligation	12,307	12,506	12,809
Projected Service Cost	179	184	189

29. CONTINGENT LIABILITY

The Authority's contract with Cory includes provisions in the event of early termination where in some circumstances the Authority may become liable for the repayment of the contractor's senior debt. The amount payable would depend upon the nature of the termination and timing. This would be offset either in part or in full by the transfer of the contractor's assets.

30. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Authority's activities expose it to a variety of financial risks in respect of financial instruments:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Authority.
- Liquidity risk – the possibility that the Authority may not have the funds available to meet its commitments to make payment.
- Refinancing risk – the possibility that the Authority might be required to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- Market risk – the possibility that financial loss might arise for the Authority as a result of changes in such measures as interest rates.

The Authority's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund its services. The procedures for risk management in relation to key financial instruments are set out through the legal framework detailed within the Local Government Act 2003 and associated regulations. These require the Authority to comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance. Overall, the Authority is required to manage risk in the following ways:

- by formally adopting the requirements of the Code of Practice;
- by approving annually in advance prudential indicators which limit the Authority's overall borrowing, its maximum and minimum exposures to fixed and variable interest rates and its maximum and minimum exposure to the maturity structure of its debt.

In order to comply with the requirement that the Authority is required to set a balanced budget (Local Government Finance Act 1992) the above is required to be reported at the same time as the levy setting meeting. The annual treasury management strategy outlines the detailed approach to managing risk in relation to financial instrument exposure. Actual performance is compared to the strategy and reported annually to Members.

In accordance with Standing Orders, the Treasurer is responsible for all of the Authority's banking, borrowing and investment activities. Under the Authority's existing

arrangements, the London Borough of Wandsworth administers part of the treasury management function on behalf of WRWA, there is a sum invested within a Diversified Income Fund and the remainder is invested with the current retail banker (RBS/ Nat West) in a Special Interest Bearing Account (SIBA). WRWA receives reports and monitors the treasury management performance of the London Borough of Wandsworth on a regular basis.

Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Authority's customers. Credit risk with banks and financial institutions are managed under the Treasury Management arrangements operated by the London Borough of Wandsworth.

Credit Risk in relation to payments due from Council Customers (Debtors)

Credit risks can arise from the Authority's exposure to customers. As the great majority of income due to WRWA is derived from its four constituent boroughs, risks are low. Payments for services are either required in advance or due at the time the service is provided. As at 31 March 2021, £5.108 million (£5.188 million as at 31 March 2020) is due to the Authority from its customers. Of this sum, constituent councils were liable to pay a net £5.006 million all of which was accrued income to the authority, and payable in April 2021. VAT due from the HMRC for February and March 2021 totalled £1.454 million whilst VAT due for February and March 2020 amounted to £1.461 million. These sums were received in April and May 2021 and 2020 respectively.

There was no provision for bad debts as at 31 March 2020 and 31 March 2021 as all outstanding debtors are expected to be paid.

Credit risk arising from deposits with Banks and Financial Institutions

This is managed through the Treasury Management Arrangements which adopt the same as those operated by the London Borough of Wandsworth.

Liquidity Risk

The Authority manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through a comprehensive cash flow management system, as required by the Code of Practice. This seeks to ensure that cash is available when it is needed.

The Authority has ready access to the Public Works Loans Board (PWLB). The PWLB provides access to longer-term funds and acts as lender of last resort to authorities. Therefore there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. As at 31 March 2021, all of the Authority's outstanding loans were with PWLB.

Through the Local Government Finance Act 1992, the Authority is required to provide a balanced budget, which ensures sufficient monies are raised to cover annual expenditure. There is no significant risk that the Authority will be unable to raise finance to meet its commitments.

Refinancing and Maturity Risk

The key risk is that the Authority will be bound to replenish a significant proportion of its financial instruments, in the form of PWLB loans, at a time of unfavourable interest rates. The risk relates to maturing financial liabilities as all PWLB loans are maturity loans. The Authority approved Treasury Management and Investment Strategies address the main risks and the Treasurer addresses the operational risks within approved parameters. This includes:

- monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or rescheduling existing debt; and
- monitoring the daily cash flow.

The maturity structure for borrowing as at 31 March 2020 and 31 March 2021 is set out below and is within the Authority's Prudential Code limits for 2019/20 and 2020/21 as set out in its Treasury Management Strategy:

<u>Renewal Period</u>	Market Loans Outstanding as at 31 March 2020 £000	% of Total borrowing	Market Loans Outstanding as at 31 March 2021 £000	% of Total borrowing
Less than One Year	-	-	2,000	66.7
Between One and Two Years	2,000	66.7	-	-
Between Two and Five Years	-	-	1,000	33.3
Between Five and Ten Years	1,000	33.3	-	-
More than Ten Years	-	-	-	-
Total	3,000	100.0	3,000	100.0

All trade and other payables are due to be paid in less than one year

Market Risk

The Authority is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Interest rates during 2019/20 and 2020/21 continue at a low level. Movements in interest rates have a complex impact on the Authority. For instance, a rise in interest rates would have the following effects:

- borrowings at variable rates – the interest expense charged to the Surplus or Deficit on the Provision of Services will rise
- borrowings at fixed rates – the fair value of the liabilities borrowings will fall
- investments at variable rates – the interest income credited to the Surplus or Deficit on the Provision of Services will rise

- investments at fixed rates – the fair value of the assets will fall.

Borrowings are not carried at fair value, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the provision of services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in Other Comprehensive Income and Expenditure.

The Authority has the following strategies to manage interest rate risk:

- All the Authority's borrowings are at fixed rates for the period of the loan.
- Spreading the maturity of loans so that a large proportion of loans do not mature in the same year.
- Ensure the average maturity period for all new loans is at least 4 years.

In view of the fact that the Authority has no variable rate borrowings, no financial impact on the Authority's financial performance for 2020/21 is reported in the key financial statements.

WESTERN RIVERSIDE WASTE AUTHORITY**ANNUAL GOVERNANCE STATEMENT 2020/21****1. SCOPE OF RESPONSIBILITY**

The Authority is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. The Authority also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, the Authority is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, which includes arrangements for the management of risk. The Authority has reviewed governance arrangements against the principles of the CIPFA/SOLACE Framework *Delivering Good Governance in Local Government* (including the subsequent Addendum). This statement explains how the Authority has complied with the code and also meets the requirements of regulation 4(2) of the Accounts and Audit Regulations 2015 in relation to the publication of a statement of internal control.

2. THE PURPOSE OF THE GOVERNANCE FRAMEWORK

The governance framework comprises the systems and processes, and culture and values, by which the Authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the Authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The CIPFA/SOLACE Framework for Delivering Good Governance in Local Government (2016) provides a core set of seven principles, listed below, to support good governance and the arrangements put in place to ensure that the intended outcomes for stakeholders are defined and achieved.

- Principle 1 Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.
- Principle 2 Ensuring openness and comprehensive stakeholder engagement.
- Principle 3 Defining outcomes in terms of sustainable economic, social, and environmental benefits.
- Principle 4 Determining the interventions necessary to optimise the achievement of the intended outcomes.
- Principle 5 Developing the entity's capacity, including the capability of its leadership and the individuals within it.
- Principle 6 Managing risks and performance through robust internal control and strong public financial management.
- Principle 7 Implementing good practices in transparency, reporting, and audit to deliver effective accountability.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Authority's policies, aims and objectives, to evaluate the likelihood of those risks materialising and the impact should they materialise, and to manage them efficiently, effectively and economically.

- **Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.** The relevant Policies and Procedures, which have been reviewed in 2020/21, when combined with proper procedures and audits, are effective in terms of reports of possible frauds or financial regularities. The Authority's complaints system is effective with numbers of complaints and reasons for complaints monitored by officers.
- **Ensuring openness and comprehensive stakeholder engagement** The Authority works in partnership with its constituent councils and maintains an effective internet site to provide feedback for all stakeholders. All meetings of the Authority are open to the press and public, and following changes in regulations are at present being held virtually with public available to view, except when exempt information is being considered, and minutes of the meetings are published on the Authority's website.
- **Defining outcomes in terms of sustainable economic, social, and environmental benefits.** The Authority's strategic approach was established within the framework of the Riverside Waste Partnership (Joint Municipal Waste Management Strategy) with its four constituent councils, the London Boroughs of Hammersmith and Fulham, Lambeth and Wandsworth and the Royal Borough of Kensington and Chelsea. This Strategy was supplemented in 2013 with the adoption of a joint waste policy document and in 2016 the Authority, jointly with the other five statutory joint waste disposal authorities, endorsed a number of points it believes are critical to developing a 'Circular Economy' and agreed a position paper on recycling. These documents, together with the Authority's Annual Report are the key documents that contain the current vision, purpose and intended outcomes for citizens and service users and are published on the Authority website. In December 2018 the Government published a Resources and Waste Strategy for England and consulted on aspects of it in February 2019 and again in 2021. The outcome of these consultations on consistency in waste collections, extended producer responsibility and the introduction of a deposit return scheme together with a tax on plastic packaging is likely to change the type and quantity of waste in the future and the Authority is preparing to update its joint waste policy when the outcome of the consultations and how the Government intends to implement them are known.

As set out in the joint waste policy document, the Authority's vision is to continue to promote the use of waste management techniques higher up the waste hierarchy as they represent best value both environmentally and economically. Performance is reviewed annually within an Annual Report. The joint strategy/waste policy document was due for review in 2015 but the Authority decided to postpone this review until the new Mayor of

London's position on waste was known and what England's plans for a Circular Economy would be following the 2016 EU Referendum. In February 2017 the Authority agreed to the production of an in depth report on recycling for its meeting in June 2017. This recycling report was independently endorsed in 2018 and different metrics to measure performance explored and the results will underpin the development of a new joint waste policy once the Government's has published how it intends to implement its Resources and Waste strategy for England. A report on the carbon impact of the Authority and its constituent councils waste management activities was published in June 2021 and will be used to inform and support the constituent councils in their strategies and action plans to address climate change.

The Authority is trialling a booking system for the Household Waste and Recycling Centre in 2021. This trial aims to a) reduce/eliminate vehicle queues with the associated environmental benefits and the convenience of users and neighbours; and b) to stop usage by residents of boroughs that do not pay for the service.

- **Determining the interventions necessary to optimise the achievement of the intended outcomes.** The Authority has an effective performance management culture and system with regular review of key performance indicators at officer and Member level. In-year monitoring reports and year-end reviews are presented to the Authority to monitor progress and action plans for seeking continuous improvement are in place and progress reviewed. Authority officers provide appropriate advice at the points of consideration and report to Members on progress and the outcome of decisions taken. Monitoring of compliance is undertaken by the Clerk to the Authority (as the Authority's monitoring officer), supported by the General Manager and the Treasurer (as the s.73 officer), with legal advice available via the Authority's legal advisers. Members are informed of relevant legal advice as it is received. All reports that have actual or potential financial implications include a Treasurer's comment.
- **Developing the entity's capacity, including the capability of its leadership and the individuals within it.** As part of a complete review of governance arrangements the Authority undertook a comprehensive review of delegations and proper officer functions in 2015/16. Formal protocols are not required within the Authority, given its size and the simplicity of its decision making processes, although Members are informed of their role in an induction pack. Officer training needs are judged to be adequately identified at annual review meetings with line managers and catered for as required with individual training plans. Members from the constituent authorities comply with their own authority codes. The officer Codes of Conduct are robust and set out clear and specific rules in relation to the giving and receiving of gifts and hospitality and are made available to officers. These were reviewed during 2020/21.

Managing risks and performance through robust internal control and strong public financial management. The Authority's Constitution and Standing Orders set out how the Authority operates, how decisions are made, and the procedures that are followed to ensure that these are efficient, transparent and accountable to local people. The membership of the Authority comprises eight elected Members, with each of the four constituent councils appointing two Members, providing a high level of scrutiny for the Authority. The Authority has a Risk Management Strategy that is embedded within the management processes and a specific risk

assessment is undertaken as part of the annual review of the Authority's internal control procedures.

- **Implementing good practices in transparency, reporting, and audit to deliver effective accountability.** Due to the nature and size of the Authority these functions are effectively undertaken at the Authority level but as and when necessary, an audit committee is convened.

3. REVIEW OF EFFECTIVENESS

The Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance arrangements including the system of internal control. The review of effectiveness is informed by the work of the senior officers who have responsibility for the development and maintenance of the governance environment, the Head of Audit's annual report and also by comments made by the external auditors and other review agencies.

Governance framework. The Authority's governance framework is embodied within a number of specific policies, codes of practice and procedures that are subject to regular review. The review of the Authority's existing governance arrangements against the updated CIPFA and SOLACE guidance highlighted the issue that many of the specific requirements of the guidance did not apply to the Authority as they relate to the statutory framework for local authorities and that given the compact size and single service nature of a joint waste disposal authority there is no need to adopt a specific Code of Governance as the current arrangements are generally fit for purpose.

Financial management. The Authority's financial management arrangements are based on a framework of a procurement code of practice and a scheme of delegations to officers that encompasses the accountability, segregation of duties, management and supervision, and administrative procedures. In particular the system includes:

- Comprehensive budgeting systems
- An annual budget approved by the Authority, formally revised in the year of account as part of the annual budget process
- A medium term financial planning process
- Mid-year and outturn reported to the Authority
- Budget review meetings with constituent Council's Finance officers
- Risk Management Strategy that is embedded within the management processes
- Measurement against the CIPFA financial management code.

Review Mechanisms. There is an annual review of the procedures and controls in place which if any amendments are required can be addressed at: The Management Team meetings, via the Standing Order No. 38 authorisation process or at an Authority meeting. The Covid 19 pandemic has meant that the Authority reviewed most of its day to day operational arrangements and addressed any risks around the new way of working. With staff homeworking, there have been new manageable risks around data security, information governance and IT Business Continuity which have all been mitigated during this time. In addition, existing business continuity plans have been reviewed to reflect the possibilities of a short notice local or national lockdown during the year.

Internal Audit. The annual review of the procedures and controls in place at the Authority concluded that there is basically a sound system of control in operation. Robust review mechanisms are in place that enable Members to take reasonable assurance that the Authority’s governance arrangements, including internal control, are effective, operated vigorously and contribute to the achievement of the Authority’s overarching objectives.

Clerk to the Authority (as Monitoring Officer). There are no issues in this statement report that need to be specifically commented upon.

The senior officers are of a view that the governance arrangements, including the risk management arrangements of the Authority, are generally satisfactory and meet the relevant requirements of the CIPFA and SOLACE guidance on “Delivering Good Governance”.

4. CONCLUSION

Governance arrangements, including internal control, across the Authority are generally sound. The Authority’s review mechanisms are an effective framework for maintaining satisfactory governance arrangements including identifying any issues and for monitoring and securing their implementation.

5. CERTIFICATE

We have been advised on the implications of the result of the review of the effectiveness of the governance framework and action plans to address any weaknesses identified and ensure continuous improvement of the system are in place. We are satisfied that these plans satisfactorily address the need for improvements that have been identified during the year and propose over the coming year to take reasonable steps to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements and we will monitor their implementation and operation as part of our next annual review.

Introduction

The key messages in this report

Audit quality is our number one priority. We plan our audit to focus on audit quality and have set the following audit quality objectives for this audit:

- A robust challenge of the key judgements taken in the preparation of the financial statements.
- A strong understanding of your internal control environment.
- A well planned and delivered audit that raises findings early with those charged with governance.

I have pleasure in presenting our final report to the the Members of Western Riverside Waste Authority (the Authority) for the 2020/21 audit. The scope of our audit was set out within our planning report presented to the Members in June 2021.

Status of our Statement of Accounts audit

Our audit is is substantially complete subject to completion of the following principal matters:

- receipt of signed management representation letter; and
- our review of events since 31 March 2021 through to signing.

Status of our Value for Money audit

We have completed our Value for Money work and and will report before 31 December 2021 in our Auditor’s Annual Report after signing the audit opinion, which is within the three month timeframe specified under the National Audit Office Auditor Guidance Note 3.

We have not identified to date any risks of significant weakness in arrangements to secure economy, efficiency and effectiveness in the use of resources.

We have no matters to report by exception in our financial statement audit opinion.

The key messages in this report (continued)

Conclusions from our testing

- The key judgements in the audit process related to:
 - valuation of Authorities property assets; and
 - valuation of pension liabilities.
- We have not identified any significant audit adjustments or disclosure deficiencies.
- Based on our audit work, we will be issuing an unmodified audit opinion, with no reference to any matters in respect of the Authority's arrangements to secure economy, efficiency and effectiveness in the use of resources, or the Annual Governance Statement.

Narrative Report & Annual Governance Statement

- We have reviewed the Authority's Narrative Report & Annual Governance Statement to consider whether it is misleading or inconsistent with other information known to us from our audit work.
- The Annual Governance Statement complies with the Delivering Good Governance guidance issued by CIPFA/SOLACE.
- We have no matters to raise with you in respect of the Narrative Report.

Duties as public auditor

- We did not receive any queries or objections from local electors this year.
- We have not identified any matters that would require us to issue a public interest report. We have not had to exercise any other audit powers under the Local Audit and Accountability Act 2014.

Whole of Government Accounts

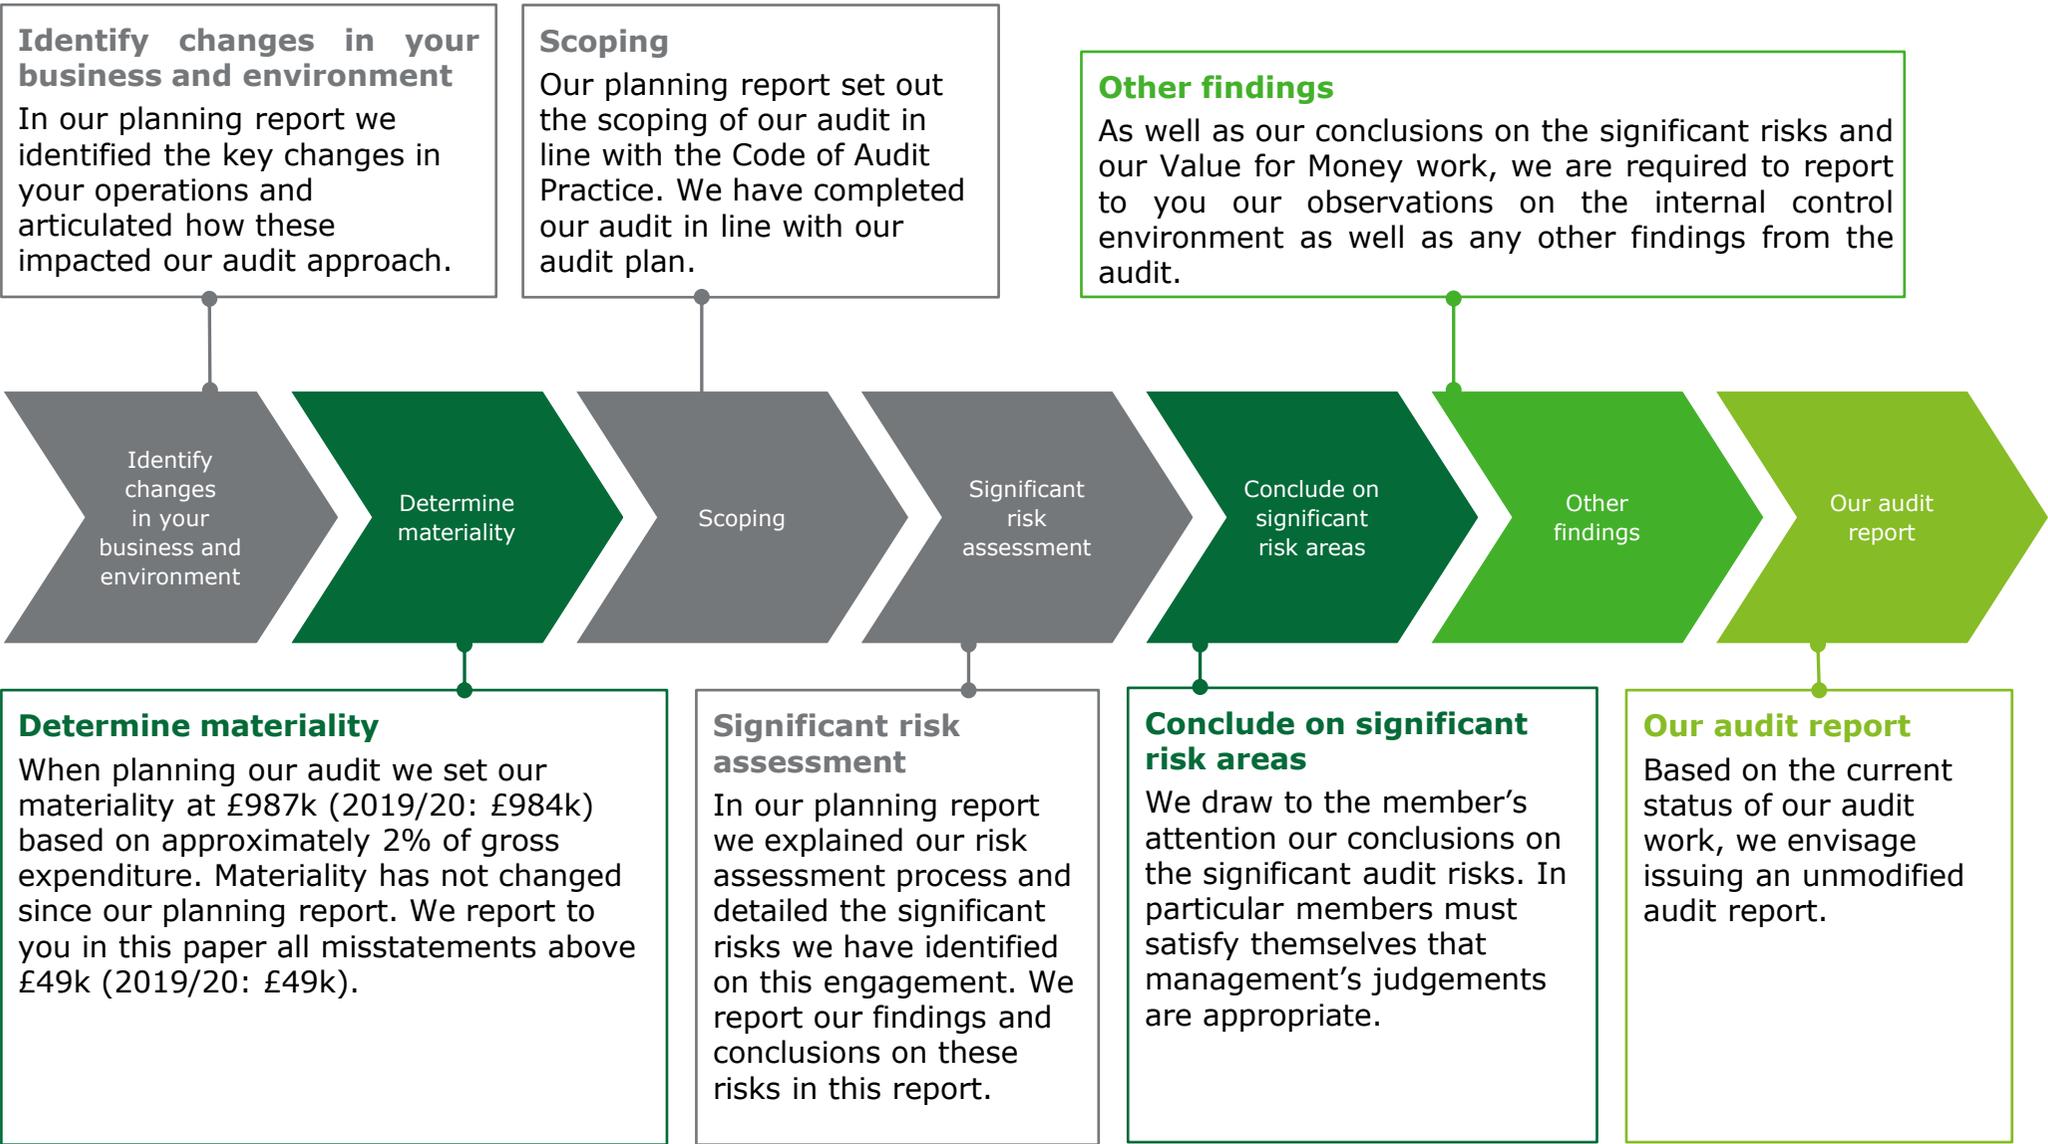

- The Authority is not a sampled component for WGA reporting.
- We are required to report our overall audit opinion and key issues from our audit to the National Audit Office following completion of the audit. However, the required reporting instructions have not yet been issued for 2020/21, and so we will only certify completion of our audit when this is available and has been completed. This does not affect the issue of our audit [opinion](#).

Impact of Covid-19 grants and change in significant risk assessment

As part of our audit plan, presented to the members in June, we highlighted that we would consider the impact of Covid-19 at the Authority. Due to the nature and operations of the Authority, no covid-19 grants have been received and no significant change in operations or impact on accounting estimates has been noted. Further information regarding the work performed and our conclusions on the impact has been detailed on page 12.

Our audit explained

We tailor our audit to your organisation and your strategy

Significant risks

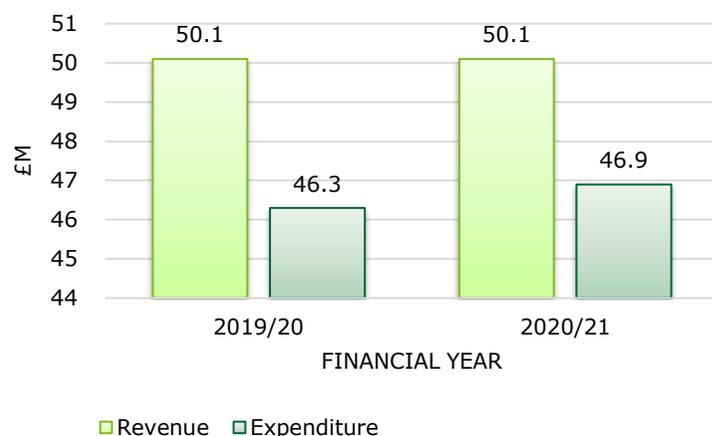

Revenue and expenditure recognition

Risk identified *

Under UK auditing standards, there is a presumed risk in respect of revenue recognition due to fraud. For the Authority, we consider this significant risk to be the validity and accuracy of the variable element of the revenue relating to the actual direct tonnage charged to the four constituents councils.

Given that revenue is driven by the volume of activity during the year, this risk is also linked to the recognition of expenditure. The Authority has a significant contract with Cory Limited for the provision of waste management services. The risk includes the accuracy and completeness of expenditure calculated by Cory and whether the Authority is accounting for expenditure appropriately and consistently in line with activity.

The Authority approves every year a gross expenditure budget. Given the pressures across the whole of the public sector, there is an inherent risk that the year-end position could be manipulated by omitting or misstating accruals.

Deloitte response

In considering the risk identified, we performed the following audit procedures that directly address this risk:

- We obtained an understanding of and test the design and implementation of the key controls in place in relation to recording the accuracy and completeness of the tonnages;
- We reviewed the contract in place between the Authority and Cory Limited;
- We performed focused testing in relation to the completeness of expenditure and accruals;
- We reviewed the accuracy of the expenditure calculated by Cory;
- As part of this focused testing, we challenged the assumptions made in relation to year-end accruals;
- We also reviewed expenses recorded in the final month of the year against previous year's trends to identify if there are any inconsistencies;
- We performed testing for unrecorded liabilities based on payments made and expenses recorded in the period after year end up to 60 days; and
- In addition, we reviewed the year on year movement in expenditure and accruals and investigated significant movements

Deloitte view

Our audit work performed suggest that the Authority has appropriately recorded revenue and expenditure for the period. No issues were noted.

* We have revised the description of the risk from that in our audit plan for greater clarity on the precise nature of the risk identified. This is not a change in the underlying risk identified or our approach.

Significant audit risks (continued)

Valuation of property assets

Risk identified

The Authority is required to hold property assets within Property, Plant and Equipment at valuation. The valuations are by nature significant estimates which are based on specialist and management assumptions and which can be subject to material changes in value.

The Authority held £57.9m of property assets at 31 March 2021, a movement of £941k, when compared to 31 March 2020. The movements is depreciation charged for the year.

Due to the materiality of this balance, we reported a risk in respect of this in our audit plan. Depending on whether a valuation is required in the judgement of the Authority and its valuer, this risk is either in respect of the judgement that no valuation is required and that no material movement in values since the previous valuation, or in respect of the valuation used for the year.

In the current year, the Authority's valuer Wilkes Head & Eve (WHE) had advised there had been no material change in asset value from the prior valuation at 31 March 2018 to the current year end 31 March 2021 and no revaluation has been performed.

Deloitte response and challenge

We have completed the following procedures:

- We have reviewed the design and implementation of the controls over the judgement in respect of whether a valuation is required;
- We have considered the work performed by the Authority's valuer, including their professional capabilities and findings;
- We obtained and challenged the valuers reasoning for their conclusion that there is no material movements in the value of property assets from the prior year end;
- We have engaged our valuation specialists, Deloitte Real Estate, to review and challenge the appropriateness of the assumptions that there is no material movements from the prior year is appropriate.;
- We have considered the impact of Covid-19 on the valuation of property assets; and
- We have reviewed the disclosures included in the Statement of Accounts.

As there were not additions or revaluation movements in the year, other procedures noted in our plan as potential responses were not required.

Significant audit risks (continued)

Valuation of property assets (continued)

Conclusion

- Based on the work performed we are satisfied that the assumptions and estimates made by management in relation to valuation of land and buildings are not unreasonable.
 - We are satisfied that the judgement that there has been no material movement in year or on a cumulative basis since the last revaluation remains within the acceptable range, but in particular for land values this is at the lower end of the acceptable range (taking into account the “least cost” requirement for location assumptions). However we have made recommendation that a full valuation of the assets held by WRWA is undertaken as at 31 March 2022 to include consideration of the MEA principles underpinning the value of the specialised assets, along with market led inputs supported by the valuer reasoning prepared in accordance with the relevant valuation and financial reporting guidance. We note that the valuation does not directly impact upon the General Fund balance, and would only impact unusable reserves in year.
 - We are also satisfied that the results of the revaluation have been properly disclosed in the financial statements.
-

Significant audit risks (continued)

Management override of controls

Risk identified Management is in a unique position to perpetrate fraud because of their ability to manipulate accounting records and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively.

Although management is responsible for safeguarding the assets of the Authority, we planned our audit so that we had a reasonable expectation of detecting material misstatements to the Statement of Accounts.

Deloitte response and challenge

We have considered the overall sensitivity of judgements made in preparation of the Statement of Accounts, and note that:

- The Authority's results throughout the year was closely monitored; and
- Senior management's remuneration is not tied to particular financial results.

We have considered these factors and other potential sensitivities in evaluating the judgements made in the preparation of the financial statements.

Journals

- We have tested the design and implementation of controls in relation to journals.
- We have made inquiries of individuals involved in the financial reporting process about inappropriate or unusual activity relating to the processing of journal entries and other adjustments.
- We have used data analytics to risk assess journals and select items for detailed follow up testing. The journal entries were selected using computer-assisted profiling based on areas which we consider to be of increased interest. Our analysis has covered all journals posted in the year.

Significant transactions

- We did not identify any significant transactions outside the normal course of business or any transactions where the business rationale was not clear.
-

Significant audit risks (continued)

Management override of controls (continued)

**Deloitte
response
and
challenge****Accounting estimates**

- We have performed design and implementation testing of the controls over key accounting estimates and judgements.
- The key judgements in the financial statements are those selected as significant audit risks and other areas of audit interest: valuation of the Authority's property asset and the pension liability, as discussed elsewhere in this report.
- We reviewed accounting estimates for biases that could result in material misstatements due to fraud. We note that overall the changes to estimates in the period were balanced and did not indicate a bias to achieve a particular result.
- We tested accounting estimates and judgements, focusing on the areas of greatest judgement and value. Our procedures included comparing amounts recorded or inputs to estimates to relevant supporting information from third party sources.

Conclusion

After concluding our work, we have no matters to bring to the attention of the Members of the Authority.

Other areas of audit focus

Defined benefits pension scheme

Background

The Local Authority Accounting Code of Practice and IAS19 require the Authority to make extensive disclosures within its financial statements regarding its membership of the London Pension Fund Authority Pension Fund, which is part of the Local Government Pension Scheme.

The Authority's pension fund deficit is a material estimated balance and the Code requires that this liability be disclosed on the Authority's Balance Sheet. Per the draft financial statements at 31 March 2021, this totalled £12.5m. As a result of this being an estimated balance there is a risk that inappropriate inputs and assumptions are used, which could result in the pension liability valuation being materially misstated.

Deloitte response

- We obtained a copy of the actuarial report produced by Barnett Waddingham, the scheme actuary, and agreed in the disclosures to notes in the accounts.
- We assessed the independence and expertise of the actuary supporting the basis of reliance upon their work.
- We reviewed and challenged the assumptions made by the actuary, including benchmarking as shown on the table opposite
- We obtained assurance from the auditor of the pension fund over the controls for providing accurate membership data to the actuary.
- We assessed the reasonableness of the Authority's share of the total assets of the scheme with the Pension Fund financial statements for the year.
- The pension auditor identified differences between the fund's audited accounts as compared to the value in the draft Accounts (used in the IAS 19 reporting) and we have included a £97k increase in assets in our error schedule for the Authority's share of this impact.
- We have challenged the calculation of the impact of the McCloud case on pension liabilities.
- We reviewed the disclosures within the accounts against the Code.

- The authority have not made any further allowance for the McCloud ruling at 31 March 2021 as allowance was made at the 31 March 2020 year-end.
- The authority has not allowed for any additional costs as a result of the ruling for the year ending 31 March 2021.

Assumption	Autho rity	Reasonabl e Ranges	Deloitte Assessment
Discount rate (% p.a.)	1.95%	1.90% - 2.15%	In reasonable range
Retail Price Index (RPI) Inflation rate (% p.a.)	3.35%	3.15% - 3.60%	In reasonable range
Consumer Price Index (CPI) Inflation rate (% p.a.)	2.90%	2.90%	Reasonable
Salary increase (% p.a.) (over RPI inflation)	3.90%	Authority specific	Reasonable
Pension increase in payment (% p.a.)	2.90%	2.90%	Reasonable
Pension increase in deferment (% p.a.)	2.90%	2.90%	Reasonable
Mortality - Life expectancy of a male pensioner from age 65 (currently aged 65)	21.60	-	Reasonable
Mortality - Life expectancy of a male pensioner from age 65 (currently aged 45)	23.5	-	Reasonable

Deloitte view

Our review of the assumptions on a whole, is considered reasonable when compared with the Deloitte benchmarks. The assumptions have been set in accordance with generally accepted actuarial principles and are compliant with the accounting standard requirement of IAS 19. We have also discussed the possible adjustments with management who have not corrected them and we have included on the uncorrected schedule. No other significant issues were identified.

Covid-19 pandemic

Impact on reporting and our audit

Impact on annual report and financial statements

Impact on property, plant and equipment	The Royal Institute of Chartered Surveyors issued a practice alert, as a result of which valuers identified a material valuation uncertainty at 31 March 2020 for most types of property valuation. This practice alert was withdrawn in September 2020. Valuation reports at March 2020 typically identified a need to consider potential impairments in future periods. Our work on property valuations (page 9) included challenging whether the Authority had appropriately considered the impact on the valuation. Disclosures of the judgements in this area are made in note 4 to the financial statements.
Expected credit losses	No issues in relation to this have arisen from our audit work. The majority of debtors at 31 March are in respect of non-exchange debtors, which are outside the scope of IFRS 9.
Narrative and other reporting issues	We have considered how the Authority has reflected the impact of the pandemic in its reporting, including: <ul style="list-style-type: none"> • Narrative Report - discussion of the impact on services, operations, performance, strategic direction, resources and financial sustainability. • Accounts disclosures on the impact on judgements and estimation uncertainty • We do not have any matters to report in respect of these disclosures.
Events after the reporting period and relevant disclosures	Events are likely to continue to move swiftly, and the Authority will need to consider the events after the Reporting Period and whether these events will be adjusting or non-adjusting and make decisions on a transaction by transaction basis.

Value for money

Our work is on-going and will be reported in our Auditor's Annual Report

Value for Money requirements

We are required to consider the Authority's arrangements for securing economy, efficiency and effectiveness in the use of resources. Under the revised requirements of the Code of Audit Practice 2020 and related Auditor Guidance Note 03 ('AGN03'), we are required to:

- Perform work to understand the Authority's arrangements to secure economy, efficiency and effectiveness in the use of resources against each of the three reporting criteria (financial sustainability, governance, and improving economy, efficiency and effectiveness);
 - Undertake a risk assessment to identify whether there are any risks of significant weaknesses in arrangements;
 - If any risks of significant weaknesses are identified, perform procedures to determine whether there is in fact a significant weakness in arrangements, and if so to make recommendations for improvement;
 - Issue a narrative commentary in the Auditor's Annual Report, setting out the work undertaken in respect of the reporting criteria and our findings, including any explanation needed in respect of judgements or local context for findings. If significant weaknesses are identified, the weaknesses and recommendations will be included in the reporting, together with follow-up of previous recommendations and whether they have been implemented. Where relevant, we may include reporting on any other matters arising we consider relevant to Value for Money arrangements, which might include emerging risks or issues arising; and
 - Where significant weaknesses are identified, report this by exception within our financial statement audit opinion.
-

Work performed to obtain an understanding of the Authority's arrangements to secure economy, efficiency and effectiveness in the use of resources

As part of our risk assessment, we have reviewed the summary of Value for Money arrangements prepared by the Authority, reviewed supporting documentation on arrangements, and held follow-up interviews on areas where additional information was required.

In addition, we have:

- reviewed of the Authority's draft Annual Governance Statement;
 - reviewed internal audit reports through the year and the Head of Internal Audit Opinion;
 - considered issues identified through our other audit and assurance work; and
 - considered the Authority's financial performance and management throughout 2020/21.
-

Status of our work

We have not identified any risks of significant weakness in arrangements. Our VfM commentary will be included in our Auditor's Annual Report, which will issue following completion of the financial statement audit.

We have no matters to report by exception in our financial statement audit opinion.

Other significant findings

Financial reporting findings

Below are the findings from our audit surrounding your financial reporting process.

Qualitative aspects of your accounting practices:

The accounting policies applied by the Authority are appropriate for the organisation. We note that services provided by Cory, asset valuation, determination of useful lives of fixed assets, arrears on balances from the constituent councils, and pension liability have been highlighted as critical accounting estimates and judgments. These are considered appropriate for the Authority.

Significant matters discussed with management:

There were no significant matters discussed with management outside of the discussions we would normally expect to form part of an audit.

Fraud and non-compliance with laws and regulations

- We have not noted any actual or suspected fraud involving management, or employees who have significant roles in internal control; and
- We have not noted any other non-compliance with laws and regulations.

Other matters relevant to financial reporting:

There are no other matters arising from the audit that, in our professional judgment, are significant to the oversight of the financial reporting process.

Liaison with Internal Audit:

The audit team, has completed an assessment of the independence and competence of the internal and reviewed their work and findings. We do not have any significant findings.

In response to the significant risks identified, no reliance was placed on the work of internal audit and we performed all work ourselves.

Other matters:

- There were no significant matters arising in connection with the entity's related parties; and
- There are no other matters where we have judged that oral communication would not be sufficient.

We will obtain written representations from the Treasurer and Members of Authority on matters material to the financial statements when other sufficient appropriate audit evidence cannot reasonably be expected to exist.

Our audit report

The form and content of our report

Here we discuss how the results of the audit impact on our audit report. An overview of our financial statement audit work will be included in our Auditor's Annual Report.

Our opinion on the financial statements

Our opinion on the financial statements is unmodified. We will highlight that the going concern assessment is on the basis of the 'continuing provision of service' approach, and will report that we concur with management's use of the going concern basis of accounting.

Emphasis of matter and other matter paragraphs

There are no matters we judge to be of fundamental importance in the financial statements that we consider it necessary to draw attention to in an emphasis of matter paragraph.

There are no matters relevant to users' understanding of the audit that we consider necessary to communicate in an other matter paragraph.

Value for Money reporting by exception

Our opinion will note that our Value for Money work is ongoing and will be reported in our Auditor's Annual Report.

We have no matters to date to report by exception in our financial statement audit opinion.

Irregularities and fraud

We will explain the extent to which we considered the audit to be capable of detecting irregularities, including fraud.

In doing so, we will describe the procedures we performed in understanding the legal and regulatory framework and assessing compliance with relevant laws and regulations. We will discuss the areas identified where fraud may occur and any identified key audit matters relating to fraud.

Recent changes to ISAs (UK) mean this requirement will apply to **all** entities for periods commencing on or after 15 December 2019

Your annual report

We are required to report by exception on any issues identified in respect of the Annual Governance Statement..

	Requirement	Deloitte response
Narrative Report	<p>The Narrative Report is expected to address (as relevant to the Authority):</p> <ul style="list-style-type: none"> • Organisational overview and external environment; • Governance; • Operational Model; • Risks and opportunities; • Strategy and resource allocation; • Performance; • Outlook; and • Basis of preparation 	<p>We have assessed whether the Narrative Report has been prepared in accordance with CIPFA guidance.</p> <p>We have also read the Narrative Report for consistency with the annual accounts and our knowledge acquired during the course of performing the audit. We have no issues to report.</p>
Annual Governance Statement	<p>The Annual Governance Statement reports that governance arrangements provide assurance, are adequate and are operating effectively.</p>	<p>We have assessed whether the information given in the Annual Governance Statement meets the disclosure requirements set out in CIPFA/SOLACE guidance, is misleading, or is inconsistent with other information from our audit. We have no issues to report.</p>

Purpose of our report and responsibility statement

Our report is designed to help you meet your governance duties

What we report

Our report is designed to help the Members of the Authority discharge their governance duties. It also represents one way in which we fulfil our obligations under ISA (UK) 260 to communicate with you regarding your oversight of the financial reporting process and your governance requirements. Our report includes:

- Results of our work on key audit judgements and our observations on the quality of your Annual Report.
- Our internal control observations.
- Other insights we have identified from our audit.

The scope of our work

Our observations are developed in the context of our audit of the financial statements.

We described the scope of our work in our audit plan.

Use of this report

This report has been prepared for the Authority, as a body, and we therefore accept responsibility to you alone for its contents. We accept no duty, responsibility or liability to any other parties, since this report has not been prepared, and is not intended, for any other purpose.

What we don't report

As you will be aware, our audit was not designed to identify all matters that may be relevant to the Members of the Authority.

Also, there will be further information you need to discharge your governance responsibilities, such as matters reported on by management or by other specialist advisers.

Finally, our views on internal controls and business risk assessment should not be taken as comprehensive or as an opinion on effectiveness since they have been based solely on the audit procedures performed in the audit of the financial statements and work under the Code of Audit Practice in respect of Value for Money arrangements.

We welcome the opportunity to discuss our report with you and receive your feedback.

Deloitte LLP

St Albans | 2 November 2021

Appendices

Audit adjustments

Unadjusted misstatements

The following uncorrected misstatements have been identified up to the date of this report which we request that you ask management to correct as required by ISAs (UK). Uncorrected misstatements increase the surplus on the CIES by £0.1m, increase net assets by £0.1m.

		Debit/ (credit) CIES £m	Debit/ (credit) in net assets £m	Debit/ (credit) prior year reserves £m	Memo: Debit/ (credit) usable reserves £m	If applicable, control deficiency identified
Misstatements identified in current year						
Pension assets valued using old prices	[1]	(0.1)	0.1	-	-	
Total		(0.1)	0.1	-	-	

(1) Pension asset error - The pension auditor identified differences between the fund's audited accounts as compared to the value in the draft Accounts (used in the IAS 19 reporting) resulting in a net increase in WRWA share of the pension assets. We estimate the Authority's share of the total error as £96.94k.

Adjusted

We have communicated presentational changes on the receivables and payables account balances to improve disclosure. This has been updated in the latest set of account.

Disclosures

We have reviewed the accounts and annual report, and have passed recommendations on these to management. Management have implemented these recommendations, and therefore there are no uncorrected disclosure deficiencies.

Independence and fees

As part of our obligations under International Standards on Auditing (UK), we are required to report to you on the matters listed below:

Independence confirmation	We confirm the audit engagement team, and others in the firm as appropriate, Deloitte LLP and, where applicable, all Deloitte network firms are independent of the Authority and our objectivity is not compromised.
Fees	<p>The “scale fee” set by Public Sector Auditor Appointments Limited for the financial statement audit, including whole of government accounts and procedures in respect of the value for money assessment, is £12,058, subject to fee variations for changing accounting and auditing requirements and the cost of actual delivery. While we acknowledge management’s commitment to improvement in the financial reporting process, we consider that the scale fees at present are significantly below the cost of delivery of the audit, and this has been recognised in the Redmond Review and proposals of MHCLG and PSAA.</p> <p>For 2019/20, we have communicated a fee variation of £10,000, subject to approval by PSAA.</p> <p>For 2020/21, we have proposed a fee variation of £10,000, subject to approval of PSAA reflecting the requirements of the revised Code of Audit Practice in particular in respect of Value for Money, the increased requirements on audit of accounting estimates under the revised ISA 540, and wider regulatory changes increasing the cost of audit delivery.</p>
Non-audit services	In our opinion there are no inconsistencies between the FRC’s Ethical Standard and the Authority’s policy. We continue to review our independence and ensure that appropriate safeguards are in place including, but not limited to, the rotation of senior partners and professional staff and the involvement of additional partners and professional staff to carry out reviews of the work performed and to otherwise advise as necessary.
Relationships	We have no other relationships with the Authority, its directors, senior managers and affiliates, and have not supplied any services to other known connected parties that we consider may reasonably be thought to bear on our objectivity and independence, together with the related safeguards that are in place.

Our other responsibilities explained

Fraud responsibilities and representations

Responsibilities:

The primary responsibility for the prevention and detection of fraud rests with management and those charged with governance, including establishing and maintaining internal controls over the reliability of financial reporting, effectiveness and efficiency of operations and compliance with applicable laws and regulations. As auditors, we obtain reasonable, but not absolute, assurance that the financial statements as a whole are free from material misstatement, whether caused by fraud or error.

Required representations:

We have asked the Members to confirm in writing that you have disclosed to us the results of your own assessment of the risk that the financial statements may be materially misstated as a result of fraud and that you are not aware of any fraud or suspected fraud that affects the Authority.

We have also asked the Members to confirm in writing their responsibility for the design, implementation and maintenance of internal control to prevent and detect fraud and error.

Audit work performed:

During course of our audit, we have had discussions with management, those charged with governance and made inquiry of the Internal Audit. This did not reveal any significant matters, and as such our audit approach did not need to be amended.

In addition, we have reviewed management's own documented procedures regarding fraud and error in the financial statements.

We will explain in our audit report how we considered the audit capable of detecting irregularities, including fraud. In doing so, we will describe the procedures we performed in understanding the legal and regulatory framework and assessing compliance with relevant laws and regulations.

Concerns:

We confirm we have no concerns in this area.

Draft representation letter

Our Ref: BJ/MA/2021

Dear Engagement Director

This representation letter is provided in connection with your audit of the financial statements of Western Riverside Waste Authority (“the Authority”) for the year ended 31 March 2021 for the purpose of expressing an opinion as to whether the financial statements give a true and fair view of the financial position of Western Riverside Waste Authority as of 31 March 2021 and of the results of its operations, other recognised gains and losses and its cash flows for the year then ended in accordance with the applicable accounting framework and the CIPFA/LASAAC Code of Practice on Local Authority Accounting 2020/21.

We confirm, to the best of our knowledge and belief, the following representations.

Financial statements

1. We understand and have fulfilled our responsibilities for the preparation of the financial statements in accordance with the applicable financial reporting framework and the CIPFA/LASAAC Code of Practice on Local Authority Accounting 2020/21 which give a true and fair view, as set out in the terms of the audit engagement letter.
2. The methods, the data, and the significant assumptions used by us in making accounting estimates and their related disclosures, including those assessing the impact of Covid-19 on the Authority, are appropriate to achieve recognition, measurement or disclosure that is reasonable in the context of the applicable financial reporting framework.
3. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of *IAS24 “Related party disclosures”*.
4. All events subsequent to the date of the financial statements and for which the applicable financial reporting framework requires adjustment of or disclosure have been adjusted or disclosed.

5. We confirm that the financial statements have been prepared on the going concern basis and disclose in accordance with IAS 1 all matters of which we are aware that are relevant to the Authority's ability to continue as a going concern, including principal conditions or events and our plans. We do not intend to liquidate the Authority or cease trading as we consider we have realistic alternatives to doing so. We are not aware of any material uncertainties related to events or conditions that may cast significant doubt upon the Authority's ability to continue as a going concern. We confirm the completeness of the information provided regarding events and conditions relating to going concern at the date of approval of the financial statements, including our plans for future actions.
6. The measurement processes, including related assumptions and models used to determine accounting estimates in the context of the applicable financial reporting framework are appropriate and have been applied consistently.
7. The assumptions appropriately reflect our intent and ability to carry out specific courses of action on behalf of the Authority where relevant to the accounting estimates and disclosures.
8. The disclosures related to accounting estimates under the Authority's applicable financial reporting framework are complete and appropriate.
9. There have been no subsequent events that require adjustment to the accounting estimates and disclosures included in the financial statements.
10. The Authority has satisfactory title to all assets and there are no liens or encumbrances on the Authority's assets and assets pledged as collateral.
11. The disclosures given in the financial statements regarding control of the Authority are correct.
12. We have recorded or disclosed, as appropriate, all liabilities, both actual and contingent, and have disclosed in Note 29 to the financial statements all guarantees that we have given to third parties.
13. We are not aware of any deficiencies in internal control.
14. All minutes of members and management meetings during and since the financial year have been made available to you

15. With respect to the revaluation of properties in accordance with the Code:

- a) the measurement processes used are appropriate and have been applied consistently, including related assumptions and models;
- b) the assumptions appropriately reflect our intent and ability to carry out specific courses of action on behalf of the Authority where relevant to the accounting estimates and disclosures;
- c) the disclosures are complete and appropriate, including in respect of the material valuation uncertainty advised by the Authority's valuer;
- d) there have been no subsequent events that require adjustment to the valuations and disclosures included in the financial statements;
- e) the information supplied for the valuation of the Authority's property assets includes up to date rental and other relevant data to inform the valuation, and there are no circumstances we are aware of that would impact upon the valuation of assets (such as issues with condition) that have not been shared with the valuer;
- f) we have considered the movement in property values between 31 December 2020 and 31 March 2021 and do not consider this material to the financial statements; and
- g) the disclosures are complete and appropriate.

16. We are not aware of events or changes in circumstances occurring during the period which indicate that the carrying amount of fixed assets or goodwill may not be recoverable.

17. We confirm that:

- all retirement benefits and schemes, including UK, foreign, funded or unfunded, approved or unapproved, contractual or implicit have been identified and properly accounted for;
- all settlements and curtailments have been identified and properly accounted for;
- all events which relate to the determination of pension liabilities have been brought to the actuary's attention;
- the actuarial assumptions underlying the valuation of the scheme liabilities (including the discount rate used) accord with the directors' best estimates of the future events that will affect the cost of retirement benefits and are consistent with our knowledge of the business;

- the salary increase assumption is reasonable and in line with our intention;
- the actuary's calculations have been based on complete and up to date member data as far as appropriate regarding the adopted methodology; and
- the amounts included in the financial statements derived from the work of the actuary are appropriate.

18. We have considered the impact on the Authority's pension liability of the McCloud and Goodwin legal cases and do not consider the impact of any adjustments for the Authority's 7 active members to be significant to the financial statement.

19. We confirm that all of the disclosures within the Narrative Report and Annual Governance Statement, and in the remuneration disclosures within the financial statements, have been prepared in accordance with the relevant legislation and guidance.

Information provided

20. We have provided you with:

- Access to all information of which we are aware that is relevant to the preparation of the financial statements such as records, documentation and other matters;
- additional information that you have requested from us for the purpose of the audit; and;
- unrestricted access to persons within the Authority from whom you determined it necessary to obtain audit evidence;
- With respect to the Authority's contractual arrangements with Cory, we have provided all relevant documentation, and, based upon our consideration of the contracts and the requirements of the CIPFA Code and International Financial Reporting Standards, have not identified any other features of the arrangements which may require consideration in determining the accounting for these arrangements or might impact upon the conclusions on the matters disclosed in the financial statements and/or discussed in the course of the audit. The Authority's agreements with Cory do not include any separately identifiable pricing of:
 - the Force Majeure provisions; and
 - payment giving rise to an identifiable receivables during the Residual Value period.

21. We have considered the substance of the Authority's lease and lease back of the Energy from Waste site from Cory, and consider that in substance this is a security mechanism to ensure payments of amounts potentially due from Cory, rather than a genuine lease arrangements.

22. We have considered the terms and substance of the Authority's leases of Authority sites to Cory, and confirm that we consider these arrangements represent operating leases, as the Authority retains substantially all the risks and rewards incidental to ownership of the assets. The economic value of the lease to Cory is not separately identifiable within the WMSA and lease agreement, and so it is not possible to show separately lease income and gross cost paid to Cory.
23. We have considered the minimum level of provision required under IAS 37 in respect of the Force Majeure provision and have not recognised a provision as the possibility of cash outflows is currently considered remote
24. All transactions have been recorded and are reflected in the financial statements and the underlying accounting records.
25. We acknowledge our responsibilities for the design, implementation and maintenance of internal control to prevent and detect fraud and error.
26. We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
27. We are not aware of any fraud or suspected fraud that affects the Authority and involves
 - i. management;
 - ii. employees who have significant roles in internal control; or
 - iii. others where the fraud could have a material effect on the financial statements.
28. We have disclosed to you all information in relation to allegations of fraud, or suspected fraud, affecting the Authority's financial statements communicated by employees, former employees, analysts, regulators or others.
29. We have disclosed to you all known instances of non-compliance, or suspected non-compliance, with laws, regulations, and contractual agreements whose effects should be considered when preparing financial statements
30. We have disclosed to you the identity of the Authority's related parties and all the related party relationships and transactions of which we are aware
31. All known actual or possible litigation and claims whose effects should be considered when preparing the financial statements have been disclosed to you and accounted for and disclosed in accordance with the applicable financial reporting framework. No other claims in connection with litigation have been or are expected to be received.

- 32. We have no plans or intentions that may materially affect the carrying value or classification of assets and liabilities reflected in the financial statements.
- 33. We have considered the valuation of the Authority’s Property, Plant and Equipment, and are not aware of any circumstances indicating volatility in asset values requiring a revaluation in the current year

We confirm that the above representations are made on the basis of adequate enquiries of management and staff (and where appropriate, inspection of evidence) sufficient to satisfy ourselves that we can properly make each of the above representations to you.

Yours faithfully

.....

Our Ref: BJ/MA/2021

Dear Engagement Director

This representation letter is provided in connection with your audit of the financial statements of Western Riverside Waste Authority (“the Authority”) for the year ended 31 March 2021 for the purpose of expressing an opinion as to whether the financial statements give a true and fair view of the financial position of Western Riverside Waste Authority as of 31 March 2021 and of the results of its operations, other recognised gains and losses and its cash flows for the year then ended in accordance with the applicable accounting framework and the CIPFA/LASAAC Code of Practice on Local Authority Accounting 2020/21.

We confirm, to the best of our knowledge and belief, the following representations.

Financial statements

1. We understand and have fulfilled our responsibilities for the preparation of the financial statements in accordance with the applicable financial reporting framework and the CIPFA/LASAAC Code of Practice on Local Authority Accounting 2020/21 which give a true and fair view, as set out in the terms of the audit engagement letter.
2. The methods, the data, and the significant assumptions used by us in making accounting estimates and their related disclosures, including those assessing the impact of Covid-19 on the Authority, are appropriate to achieve recognition, measurement or disclosure that is reasonable in the context of the applicable financial reporting framework.
3. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of IAS24 “*Related party disclosures*”.
4. All events subsequent to the date of the financial statements and for which the applicable financial reporting framework requires adjustment of or disclosure have been adjusted or disclosed.
5. We confirm that the financial statements have been prepared on the going concern basis and disclose in accordance with IAS 1 all matters of which we are aware that are relevant to the

Authority's ability to continue as a going concern, including principal conditions or events and our plans. We do not intend to liquidate the Authority or cease trading as we consider we have realistic alternatives to doing so. We are not aware of any material uncertainties related to events or conditions that may cast significant doubt upon the Authority's ability to continue as a going concern. We confirm the completeness of the information provided regarding events and conditions relating to going concern at the date of approval of the financial statements, including our plans for future actions.

6. The measurement processes, including related assumptions and models used to determine accounting estimates in the context of the applicable financial reporting framework are appropriate and have been applied consistently.
7. The assumptions appropriately reflect our intent and ability to carry out specific courses of action on behalf of the Authority where relevant to the accounting estimates and disclosures.
8. The disclosures related to accounting estimates under the Authority' applicable financial reporting framework are complete and appropriate.
9. There have been no subsequent events that require adjustment to the accounting estimates and disclosures included in the financial statements.
10. The Authority has satisfactory title to all assets and there are no liens or encumbrances on the Authority's assets and assets pledged as collateral.
11. The disclosures given in the financial statements regarding control of the Authority are correct.
12. We have recorded or disclosed, as appropriate, all liabilities, both actual and contingent, and have disclosed in Note 29 to the financial statements all guarantees that we have given to third parties.
13. We are not aware of any deficiencies in internal control.
14. All minutes of members and management meetings during and since the financial year have been made available to you.
15. With respect to the revaluation of properties in accordance with the Code:
 - a) the measurement processes used are appropriate and have been applied consistently, including related assumptions and models;
 - b) the assumptions appropriately reflect our intent and ability to carry out specific courses of action on behalf of the Authority where relevant to the accounting estimates and disclosures;
 - c) the disclosures are complete and appropriate, including in respect of the material valuation uncertainty advised by the Authority's valuer;
 - d) there have been no subsequent events that require adjustment to the valuations and disclosures included in the financial statements;

- e) the information supplied for the valuation of the Authority's property assets includes up to date rental and other relevant data to inform the valuation, and there are no circumstances we are aware of that would impact upon the valuation of assets (such as issues with condition) that have not been shared with the valuer;
- f) we have considered the movement in property values between 31 December 2020 and 31 March 2021 and do not consider this material to the financial statements; and
- g) the disclosures are complete and appropriate.
16. We are not aware of events or changes in circumstances occurring during the period which indicate that the carrying amount of fixed assets or goodwill may not be recoverable.
17. We confirm that:
- all retirement benefits and schemes, including UK, foreign, funded or unfunded, approved or unapproved, contractual or implicit have been identified and properly accounted for;
 - all settlements and curtailments have been identified and properly accounted for;
 - all events which relate to the determination of pension liabilities have been brought to the actuary's attention;
 - the actuarial assumptions underlying the valuation of the scheme liabilities (including the discount rate used) accord with the directors' best estimates of the future events that will affect the cost of retirement benefits and are consistent with our knowledge of the business;
 - the salary increase assumption is reasonable and in line with our intention;
 - the actuary's calculations have been based on complete and up to date member data as far as appropriate regarding the adopted methodology; and
 - the amounts included in the financial statements derived from the work of the actuary are appropriate.
18. We have considered the impact on the Authority's pension liability of the McCloud and Goodwin legal cases and do not consider the impact of any adjustments for the Authority's 7 active members to be significant to the financial statement.
19. We confirm that all of the disclosures within the Narrative Report and Annual Governance Statement, and in the remuneration disclosures within the financial statements, have been prepared in accordance with the relevant legislation and guidance.

20. We have provided you with:
- Access to all information of which we are aware that is relevant to the preparation of the financial statements such as records, documentation and other matters;
 - additional information that you have requested from us for the purpose of the audit; and;
 - unrestricted access to persons within the Authority from whom you determined it necessary to obtain audit evidence.
 - With respect to the Authority's contractual arrangements with Cory, we have provided all relevant documentation, and, based upon our consideration of the contracts and the requirements of the CIPFA Code and International Financial Reporting Standards, have not identified any other features of the arrangements which may require consideration in determining the accounting for these arrangements or might impact upon the conclusions on the matters disclosed in the financial statements and/or discussed in the course of the audit. The Authority's agreements with Cory do not include any separately identifiable pricing of:
 - the Force Majeure provisions; and
 - payment giving rise to an identifiable receivables during the Residual Value period.
21. We have considered the substance of the Authority's lease and lease back of the Energy from Waste site from Cory, and consider that in substance this is a security mechanism to ensure payments of amounts potentially due from Cory, rather than a genuine lease arrangements.
22. We have considered the terms and substance of the Authority's leases of Authority sites to Cory, and confirm that we consider these arrangements represent operating leases, as the Authority retains substantially all the risks and rewards incidental to ownership of the assets. The economic value of the lease to Cory is not separately identifiable within the WMSA and lease agreement, and so it is not possible to show separately lease income and gross cost paid to Cory.
23. We have considered the minimum level of provision required under IAS 37 in respect of the Force Majeure provision and have not recognised a provision as the possibility of cash outflows is currently considered remote.
24. All transactions have been recorded and are reflected in the financial statements and the underlying accounting records.
25. We acknowledge our responsibilities for the design, implementation and maintenance of internal control to prevent and detect fraud and error.
26. We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.

- 27. We are not aware of any fraud or suspected fraud that affects the Authority and involves:
 - (i) management;
 - (ii) employees who have significant roles in internal control; or
 - (iii) others where the fraud could have a material effect on the financial statements.
- 28. We have disclosed to you all information in relation to allegations of fraud, or suspected fraud, affecting the Authority's financial statements communicated by employees, former employees, analysts, regulators or others.
- 29. We have disclosed to you all known instances of non-compliance, or suspected non-compliance, with laws, regulations, and contractual agreements whose effects should be considered when preparing financial statements.
- 30. We have disclosed to you the identity of the Authority's related parties and all the related party relationships and transactions of which we are aware.
- 31. All known actual or possible litigation and claims whose effects should be considered when preparing the financial statements have been disclosed to you and accounted for and disclosed in accordance with the applicable financial reporting framework. No other claims in connection with litigation have been or are expected to be received.
- 32. We have no plans or intentions that may materially affect the carrying value or classification of assets and liabilities reflected in the financial statements.
- 33. We have considered the valuation of the Authority's Property, Plant and Equipment, and are not aware of any circumstances indicating volatility in asset values requiring a revaluation in the current year

We confirm that the above representations are made on the basis of adequate enquiries of management and staff (and where appropriate, inspection of evidence) sufficient to satisfy ourselves that we can properly make each of the above representations to you.

Yours faithfully

02 November 2021

Dear Sirs

We have pleasure in setting out this Annual Audit Letter to summarise the key matters arising from the work that we have carried out in respect of the audit for the year ended 31 March 2020.

Although this letter is addressed to the Members of Western Riverside Waste Authority (“the Authority”), it is also intended to communicate the significant issues we have identified in an accessible style to key external stakeholders including members of the public. The letter will be published on the Public Sector Audit Appointments Ltd (PSAA) website at www.psa.co.uk and on the Authority’s website.

This letter has been prepared in the context of the Statement of Responsibilities of Auditors and Audited Bodies issued by Public Sector Audit Appointments Ltd. This is available from www.psa.co.uk.

This letter has been discussed and agreed with the Treasurer. A copy of the letter will be provided to all Members.

Yours faithfully,

Ben Sheriff
Audit Director
for and on behalf of Deloitte LLP
St Albans, United Kingdom

2. Key Messages

Statement of Accounts

Unqualified opinion issued on 30 November 2020

In 2019/20 the Authority was required to prepare its Statement of Accounts in accordance with International Financial Reporting Standards ("IFRS") as defined in the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 and other relevant legislation.

We issued our audit opinion on the financial statements on 30 November 2020. Our opinion was not qualified.

Materiality for the Authority's accounts was set at £984,000.

Value for Money ("VfM") conclusion

Unqualified conclusion issued on 30 November 2020

We are required to base our statutory VfM conclusion on the criteria specified by the National Audit Office. This is an evaluation of whether the Authority has in place proper arrangements to ensure properly informed decisions were taken and the Authority deployed resources to achieve planned and sustainable outcomes for taxpayers and local people.

We issued an unqualified VfM conclusion on 30 November 2020.

Audit findings

We did not identify any significant weaknesses in internal control or other findings

International Standards on Auditing (UK) require us to communicate in writing to those charged with governance the significant findings from our audit. For the avoidance of doubt, in respect of the Authority's audit for 2019/20, there were no findings that we brought to the attention of the members.

Independence and Objectivity

Independence and objectivity

In our professional judgement the policies and safeguards in place ensure that we are independent within the meaning of all regulatory and professional requirements and that the objectivity of the audit lead and audit staff is not impaired.

3. Responsibilities and Scope

Responsibilities of the Authority and Auditors

The Authority is responsible for maintaining the control environment and accounting records and preparing the accounting statements in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 based on IFRS and other relevant legislation.

We are appointed as the Authority's independent external auditors by PSAA, the body responsible for appointing auditors to local public bodies in England where they have opted into this programme.

As the Authority's appointed external auditor, we are responsible for planning and carrying out an audit that meets the requirements of the National Audit Office's Code of Audit Practice ("the Code"). Under the Code, we have responsibilities in two main areas:

- auditing the Authority's accounts; and
- evaluating whether the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources (the value for money ("VFM") conclusion).

The scope of our work

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) as adopted by the UK Auditing Practices Board ("APB"). The audit opinion on the accounts reflects the financial reporting framework adopted by the Authority, being the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 based on IFRS and other relevant legislation.

We conducted our work on the 2019/20 VFM conclusion in line with guidance issued by the National Audit Office.

4. Audit of the Accounts

Statement of Accounts	
Unqualified opinion issued on 30 November 2020	<p>We issued an unqualified opinion on the Authority's 2019/20 accounts on 30 November 2020. Our opinion included an "emphasis of matter" in respect of property valuations as discussed further below due to the circumstances of the Covid-19 pandemic.</p> <p>Before we give our opinion on the accounts, we are required to report to those charged with governance (here the members) any significant matters arising from the audit. To address this requirement, a detailed report was issued on 22 September 2020. This was discussed with the members of the Audit Committee on 29 September 2020. This paper is available to view online as part of the members pack for that meeting. The remaining open matters at the time of that report were satisfactorily resolved (primarily through the receipt of reporting from the pension scheme auditor) without additional matters requiring reporting to the Authority.</p>
Materiality	<p>We define materiality as the magnitude of misstatement in the financial statements that makes it probable that the economic decisions of a reasonably knowledgeable person would be changed or influenced. We use materiality both in planning the scope of our audit work and in evaluating the results of our work.</p> <p>Based on our professional judgement, materiality for the Authority's accounts was set at £984,000 which equated to 2% of gross expenditure at the planning stage of the audit. This benchmark was chosen as the Authority is a non-profit organisation and total expenditure is a key measure of financial performance for users of the financial statements.</p> <p>We agreed with the members that we would report to them all uncorrected audit differences in excess of £49,000, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds. We would also report to the members on any uncorrected disclosure matters identified when assessing the overall presentation of the financial statements. For the avoidance of doubt, no such matters were identified in relation to the audit of the 2019/20 Statement of Accounts.</p>
Significant Risks	<p>Our audit work was designed to specifically address the following significant audit risks which are presented in further detail below. Significant audit risks are the areas deemed to be those with the greatest potential of being materially incorrect in the financial statements and are therefore areas of greater focus for the audit team.</p> <ol style="list-style-type: none"> 1. Property valuation: Our conclusion in this risk area is that the net book value of property assets is not materially misstated. The Authority's valuation assumptions are generally reasonable and fall within the expected range. The Authority's valuer confirmed that there was a material valuation uncertainty due to the impact of Covid-19 as at 31 March 2020. This was disclosed in Note 4 of the Authority's account. An "emphasis of matter" was therefore included in our audit opinion to draw attention to management disclosure. There are no other findings to report.

	<p>2. Revenue and expenditure recognition: We concluded satisfactorily in this area and there are no findings to report.</p> <p>3. Management override of controls: We concluded satisfactorily in this area. We did not identify any significant bias in the key judgements made by management based on work performed.</p>
Annual Governance Statement and Other Information	
No issues were identified in relation to this work	As appointed auditors, we review the Annual Governance Statement (“AGS”) and other information presented with the financial statements to check that information is consistent with the financial statements. We do not have any findings to report in relation to this.
Powers and Duties	
We did not receive any questions about the accounts or make any public interest reports	<p>Under the Local Audit and Accountability Act 2014, auditors have specific powers and duties, including to give electors the opportunity to raise questions about the accounts and to consider and decide upon objections received in relation to the accounts. We did not receive any such questions or objections.</p> <p>We have a duty to consider whether to issue a report in the public interest about something we believe the Authority should consider, or if the public should know about.</p> <p>We have not identified any matters that would require us to issue a public interest report.</p>
Whole of Government (“WGA”) accounts return	
The Authority is below the audit threshold	The Authority prepares a consolidation pack to support the production of Whole of Government Accounts by HM Treasury. Under WGA requirements, we are required to submit a return outlining any issues arising from the audit and, as applicable here, confirming that the authority’s closing balances fall below the threshold above which further audit procedures on the WGA consolidation pack are required. As required by the guidance, we submitted the return confirming these matters to the National Audit Office.
Audit Certificate	
We have issued our certificate	We issued our certificate on 30 November 2020. The certificate confirmed that we have concluded the audit for 2019/20 in accordance with the requirements of the Local Audit & Accountability Act 2014 and the Code of Audit Practice.

5. Value for Money

Background and approach

We are required to issue a value for money ("VfM") conclusion within our report on the financial statements. We are required to base our VfM conclusion on criteria specified by the National Audit Office ("NAO") where we are required to be satisfied that proper arrangements have been made to secure economy, efficiency and effectiveness in the use of resources. Our assessment is based on the following reporting criterion:

"In all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people."

The following sub-criteria are then used to inform and guide our work and inform our overall judgement although there is no requirement to separate these nor to report against each sub-criteria:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties.

We would emphasise that it is the arrangements in place that we are required to assess, and not the actual decisions made by the Authority.

We planned our local programme of work based on our risk assessment, which was informed by a series of risk factors determined by the National Audit Office.

We did not identify any significant risks as part of our risk assessment.

The VFM conclusion

Having performed our work in line with guidance received from the National Audit Office we issued an unqualified value for money conclusion for the 2019/20 financial year.

6. Statement of Responsibilities

Statement of Responsibilities

The Statement of Responsibilities of Auditors and Audited Bodies issued by PSAA explains the respective responsibilities of auditors and of the audited body and this report is prepared on the basis of, and our audit work is carried out in accordance with, that statement.

The matters raised in this report are only those that came to our attention during our audit and are not necessarily a comprehensive statement of all weaknesses that exist or of all improvements that might be made. You should assess recommendations for improvements for their full implications before they are implemented. In particular, we would emphasise that we are not responsible for the adequacy and appropriateness of the national data and methodology supporting our value for money conclusion as they are derived solely from the National Audit Office.

This report has been prepared for the Members, as a body, and we therefore accept responsibility to you alone for its contents. We accept no duty, responsibility or liability to any other party.

An audit does not provide assurance on the maintenance and integrity of the website, including controls used to achieve this, and in particular on whether any changes may have occurred to the Annual Audit Letter since first published. These matters are the responsibility of the Authority but no control procedures can provide absolute assurance in this area.
