INTRODUCTION

1. At the September 2019 meeting of the Authority, Members asked that a Forward Plan be produced to allow the Authority to identify future reports and see indicative dates of when decisions will need to be made, including, where possible, an indication of when decisions may need to be made by the Constituent Councils.
2. This report will be updated for every meeting and new and forthcoming items will be added to the list over time. The Forward Plan, which is attached as an Appendix to this report, has been divided into sections:
 - a. Consultations, Strategies and Policy Development
 - b. Operational and Other Matters
 - c. Corporate Governance
 - d. Finance

a) Consultations, Strategies and Policy Development

3. Consultations relating to waste planning policy developments and issues relating to waste management are kept under review. Where such consultations are identified, they are noted in this section of the Forward Plan; otherwise a general report is listed, and relevant policy developments and consultations will be included.

b) Operational and Other Matters

4. This section lists the on-going prevention, reduction, reuse, recycling, composting and energy recovery treatment of the wastes collected by the constituent councils, along with associated contract performance management and statutory reporting activities. Bids for financial support from external bodies will also come forward.

c) Corporate Governance

5. Governance and management arrangements are kept under review to ensure that the Authority complies with its statutory duties and acts in the public interest at all times. At the organisational level, the Authority continues to have regard to potential risks in its relationships with its contractors and constituent councils.

d) Finance

6. Budget approval reports and Accounts sign off by the Authority or the Audit Committee (when applicable) are included, together with the regular budget updates.

RECOMMENDATION

7. Members are asked to receive this report as information.
