

Recycling Superhero– KS1

Michael Recycle

Michael Recycle is a recycling superhero who flies round the lands teaching people about why it is not good to litter and how to recycle.

Why it is not good to litter? Tick the circles you think are correct:

- It can hurt the animals and birds
- It makes the street clean
- It costs a lot of money to clear litter
- It looks nice
- It looks horrible

These are the 5 different types of things which should be in your recycling bin at home:

Metal cans

Paper

Glass

Cardboard

Plastics

Reduce, reuse, recycle

Look at the packaging. What is it made of? They are made of different things (materials). Do you know which materials go in the Recycling bin and which go in the Rubbish bin?

Guess which one goes in which bin and then follow the line to find out if you are right.

Reduce, reuse, recycle

Look at the packaging. What is it made of? They are made of different things (materials). Do you know which materials go in the Recycling bin and which go in the Rubbish bin?

Guess which one goes in which bin and then follow the line to find out if you are right.

The diagram shows four items at the top: a mango can, a Twix Xtra bar, a stack of newspapers, and a stack of blue paper. Below these are two bins: a green bin labeled 'Recycling' and a black bin labeled 'Rubbish'. Black lines connect the items to the bins: the mango can and Twix bar connect to the Rubbish bin, while the newspapers and blue paper connect to the Recycling bin.

Recycling

Rubbish

Reduce, reuse, recycle

Look around your home and in your recycling bin (be careful of any glass). Can you find any OLD newspaper/magazines/wrapping paper/old birthday cards/cereal boxes that would normally be thrown away that you are allowed to cut up and decorate your very own superhero. You could even find out if you have any OLD fabric, holey socks/t-shirts, wool you could use (these should not be in your recycling bin!).

If you have a printer you can print and cut out the recycling superhero on the next page (get an adult to help you). If you don't have a printer you can try and copy it or ask an adult to try and draw/trace it. Or you could make a bookmark instead from a piece of cardboard e.g. an old cereal box.
